People don't realize how corrupt their country is. You find out when you oppose the interests of people like this (oil companies). I fought a Wall Street bank. I built an airtight case and sent to the DOJ. I was subsequently massacred with crime by the United States of America.

The USA packs a punch. So does a Wall Street bank with \$200 billion and complete impunity. I'm a ruined human being as a result. I have been damaged so severely as to be unfit for life and unfit to be around people.

Massacre is a word with a meaning.

What you were apparently trying to say is that you lost a civil case against a bank, apparently you also sent your information to the DOJ and they did nothing with your accusation.

Neither is a “massacre”. Neither is a sign of “corruption”.

I have been massacred with crime by Wells Fargo and I need help. I need media and psychologists. Please DM me if you are one of the above, or if you can connect me to them, or if you would like to help me by spreading the word or in another way.

You were crazy. You told people at work you were crazy and that people were trying to kill you. People at work got worried and tried to find out if you were a threat. You think that's illegal. You sent a rambling diatribe to the Feds.

The thought it was crazy.

The end.

I got in a discussion about my victimization last night. The person was extremely skeptical but I showed him some of my evidence. He came around. It is impossible to look at my evidence and not be convinced. My case is powerful and disbelief is due to laziness and discrimination.

I read your entire document. If I would have worked with you, I would have notified the authorities as well.

If I was you supervisor, I would have fired you for bad mouthing the company and throwing your department under the bus.

You have no case.

A Wall Street bank had me kidnapped as part of a massive crime spree. This DOJ sponsored a cover-up of this crime spree that involved merciless criminal abuse of me when I am a disabled man. They used poor peoples money to pay for their crimes.

His coworker and best friend at a bank was worried he was going to hurt himself or others. She reported her concerns to his mental health provider which sought involuntary commitment.

He considers that a kidnapping and a crime spree.

I was severely disabled with ptsd and I was under an ongoing criminal massacre. This victimization that people don't think happened caused me severe PTSD. I needed the Justice Departments help. My SOL still isn't up.

Reading 132 pages is a waste of time. My original complaint to the Justice Department was 9 pages and they replied that it didn't have sufficient detail to warrant action. I desperately needed their help and so if more detailed is what they want, more detailed is what they get.

But that's what I have. Looking back I overdid it. It's not a waste of time if you care to learn about my life though. It is quite well written. I couldn't proofread it due to my ptsd.

I find proofreading is the most important part of writing.

Cutting out excess is the largest part of good writing, even in business writing.

I'd class this as business or professional writing.

you give me your email or your cash app user name and you get \$50. Since you're up and at em, why don't you just screenshot the folder on your phone where you downloaded my evidence. If you don't want \$50, I will concede here, publicly, all that you have accused me of.

You spend a hundred thirty pages describing mental health problems.

It's on your Twitter bio.

I boiled that down to “crazy”.

Welcome to the English language.
