

I sent the below message to the Federal Reserve Board on the Federal Reserve website's contact form on March 25th, 2022. I received no response. Note that they responded to every other one of my messages.

Hi,

I have sent you many messages. I have strong reason to believe that my former employer, Wells Fargo, has illegally obtained my healthcare records. I believe that they may be showing them to authorities and regulators. Could you tell me if anyone in your agency has saw my healthcare records? If so, do you know roughly the number of people within your agency who have saw my healthcare records? By your agency, I mean all members and staff of the Federal Reserve, to include the board and anyone else employed by the Federal Reserve.
