

I sent the below complaint to the IG, AG, and Associate AG, through justice.gov's contact form. I did this around 11/14/2021.

Sir,

I have contacted yOur agency with a complaint about Wells Fargo. I have subsequently been treated with cruelty and abuse, as I am already a disabled man. I am horrifically suffering, and abuse that is sponsored by your agency continues to be directed at me. I mean no one any harm. I have been massively victimized. My victimization has left me handicapped for life and caused me extreme suffering. Your agency is sponsoring a cover up of Wells Fargo's crimes. I am ok with this, if they will also please help me.

I am being treated with such complete cruelty that it makes me think the people on your end have some justification. Perhaps you have heard that I am some vile thing, like a rapist or a psychopath. Such things have been said about me in the mountains where I used to live. They are all completely untrue. Any supposed crimes that I have committed, please have me prosecuted in a fair trial. I will waive my right to limitations, if needed. I am a good man. I am very kindhearted. I can survive any fair trial about my conduct.

I desperately need your help. I otherwise mean no one any harm. I have been massacred with criminal abuse. Whatever is being used to justify this cruelty isn't true. It could not be. I have done nothing to remotely deserve the way that I am being treated.

I thank you in advance for any consideration you give me. I like to help people and if I can, one day I can help you with something. As of the current time, they have taken away my medication and I can't do anything. They take away my medication as part of the ongoing campaign of abuse that is and has been directed at me.

Again, I thank you, and best wishes for you and your family and loved ones,

Leonard Clinton Williams III
