

I am very sorry to send you so many complaints. I have submitted several concerning the ongoing cover up, fraud, etc. related to my complaint to the U.S. DOJ about Wells Fargo.

I am of the belief that my complaints are not the first you have heard about this. I am of the belief that a large portion of the DOJ, if not all of the DOJ, is aware of what happened to me.

Let me please explain something- I am a very kindhearted man who can also be quite naïve. I have found myself in a situation that is bigger than myself by many orders of magnitude. I do not want to cause trouble for the DOJ or for the economy or for anyone else. I simply need help for the damage that I have been caused. I will do whatever I need to do to help you and to protect your interests. Again, your interests are much bigger than me.

As of now, I have an extremely severe case of PTSD. My brain is profoundly injured and I am profoundly handicapped. I am not fit to be around people. I am getting evicted on 11/29/2022 (this is what is scheduled) and I cannot let this happen. I will die on the preceding Friday night.

My suffering cannot be put into words, and I need the DOJ to act fast. I have begged for help for going on 1 year now. I submitted my complaint last October. I started begging for help not long after that. If we do not change things, the course we are on will have someone dying as a result of the conduct of Wells Fargo. This would be a terrible outcome and a terrible and sad day for capitalism in America. I need the DOJ to work with Wells Fargo to give me a settlement. I need them to help me fast. I send you so many complaints because I desperately need your help.

Here are some things that I am willing to do-

Sign a confidentiality agreement

Keep silent about this entire matter with no formal agreement in place

Move to another country (I don't like this option but will do it, if I can get help)

I just sent some audios tonight to the criminal division's inbox. I ask that you please listen to those. I ask that you please contact me or have the criminal or civil division contact me. Email is best for icebreakers. My sleep is all over the place and phone is not as reliable.

We can work this out. I am a good, kind, and honest man. I am also a man of my word. You can work with me to protect your interests and I will do everything that you ask me to. Please, I am extremely ill and my life is at stake.
