### Crisis/Presenting Problem

*Reason For Call :* Assessment

*Is This A Crisis? :* No

*Presenting Problem :* Patient's mother calling reporting that patient is angry at her. It is unclear why mom decided to call the office. She reports that patient's medicine is at the pharmacy but she does not know what pharmacy. So she is not requesting a refill. However, it seems like patient has not picked it up from the pharmacy but mom is not sure. She is concerned that patient might not have taken his medicine but she does not know one way or the other. She reports that patient feels she should pay his bills and is angry because she does not have the money for his rent and car payment. Mom is tearful. Mom denies that patient is suicidal or homicidal. It seems that mom would like to get patient's medicine for him to ensure that he is taking it but he won't tell her what pharmacy the medicine is at. Consent in chart for mom is expired so clinician cannot provide this information. Last saw kathleen peniston on 7/21/20
