Moments of Truth Award nomination

Clint Williams

Nominated by: Julie Bell

For exhibiting collaborative, execution focused, results focused, customer centric, team member advocacy, and doing the right thing principles

Clint is a phenomenal team member and exemplifies so many of the leadership principles. He's always willing to go the extra mile (aka nights/weekends) to ensure that our office spreads are completed ACCURATELY and ready for use in our daily activities. He's always willing to help find solutions for one-off items, and is unafraid to call asking for clarification or offer proactive solutions. One of the things I appreciate the most is that he closes out almost every conversation with "Is there anything else I can help you with". I cannot express enough how appreciated that is.

Clint Williams

Nominated by: Ben Carpenter

For exhibiting collaborative and customer centric principles

Clint has gone above expectations when completing spreads. He has found several errors that the office and previous analysts have missed. Clint will call to discuss issues with spreads, which I have found to be more effective than trying to communicate spreading issues over email. Clint always responds quickly to calls and emails. He is friendly and professional. Spreads from Clint are free of errors, so I spend less time reviewing them, giving me more time to complete other tasks. Thank you Clint for doing outstanding work!

For exhibiting collaborative, customer centric, doing the right thing, execution focused, and results focused principles

Clint has been an outstanding addition to the Food & Ag business. After drifting from one analyst to another for quite some time, it finally seems like we have a partner who has bought into the "Wells Fargo Way" and is committed to providing a quality product in a timely manner. Clint even reviews prior work that has been completed by previous Analysts and makes corrections where necessary. He is always available for questions and often has some of his own. It is always much easier to answer questions than correct mistakes and Clint gets that. He's been great.
