Thank you for your message. It has been successfully sent to the appropriate care team.

Hey Kathy,

I'm doing a check on who and how my health information is being shared and with whom it is being shared with. I just called corporate privacy, and they advised me that medical records may have limited information due to patient/provider privacy. I'm going to shoot you a separate email with a question, as this sort of implies that you have information that medical records do not. My character limit for this message is about up.

Correspondence & Follow Up

Thank you for your message. It has been successfully sent to the appropriate care team.

What I am asking you for help with is this-

I am aware that in normal circumstances I must permit my healthcare team to talk to outside personal acquaintances, but that there are exceptions where this may not be applied. Can you tell me if you have contacted Jennifer Cox (who filed the involuntary commitment in 4/2019) for any reason, whether permitted or not? Were these communications (if they exist) properly documented so as to be on Atrium Health's records?

Thank you for your time.
