### Crisis/Presenting Problem

*Reason For Call :* Assessment

*Is This A Crisis? :* Yes

*Crisis Details :* Safety concern

*Presenting Problem :* Patient's mother calling reporting that patient is in a "psychotic state." Patient has been thinking things like BHC OMS is against him. Patient is paranoid. Mom reports that sometimes patient "over takes" his medicine. Patient also reported that he does not want to live. Patient stated to his mom that whenever he pays his mom back the money he owes her he plans to go to another country where euthanasia is legal and commit doctor assisted suicide. Mom reports that because of his paranoia and the recent statements regarding suicidal thoughts, she is concerned that he might become a danger to himself or others. Mom denies that patient is currently homicidal, denies any history of danger to others. Clinician advised mom that patient can be seen at BHC ED. Clinician advised mom of IVC process should patient not want to go voluntarily. Clinician advised mom to call 911 if patient is in any immediate danger before he is able to be seen. Mom reports she does not want patient to know she called, she is scared that might agitate him more.
