Impact on me

To: "Division, Criminal (CRM)" <Criminal.Division@usdoj.gov>, John Monguillot [REDACTED]@gmail.com>

Here is the last video I will send you for now.. It explains some things. I must bring up again that I am profoundly disabled. I will be seeing a neurologist soon (don't tell Wells Fargo. Wells Fargo will pay them off to falsify information). I intend to get a brain scan. I have no doubt that this will show that I have a profound traumatic brain injury.

I will never have much a life again, and I will never be able to make a living in the career world. I am making a learning courses website to supplement my income. At this rate, god knows how long it will take me to make it. I get uncontrollably hostile with people and I am paralyzed with stress for most of every day. I have extreme difficulty concentrating most of the time.
