I need my mother and atrium health to help me. I need atrium health to relent in this healthcare fraud. I am extremely weakened as a human being and am going to die if I get attacked any more. I'll attach screenshots to explain what is happening. This fight is killing me. At some point one of these blows is literally going to make me die, right on the spot. I need people to listen to me. I know exactly what I need. If I can get people to help me like I need right now I will be fine for a good while.

If I die, you can count on L.A. Times putting all of this out there. 100,000, 200,000, 300,000 messages +. Some portion of these messages are about what I am up to throughout the day. Some portion are about my life story and my opinions and the way I look at the world. With those aside, it is a barrage of horrific suffering, sadness, feeling the effects of cruel abuse, reasoning and logic about why certain crimes are taking place, and taking shots at Wells Fargo for all Wells Fargo has done wrong.

This bank will not survive this, I do not think. Any hopes they have for people not believing every bit of it are in vain. I am very good at explaining reality and I've got an air tight case for every bit of it. LA times likely has more than 1 expert and when it hits the public there will be dozens or hundreds or thousands more to chime in. I am too weak to type any more

be like

If I die in my sleep

Most likely the act of dying will cause me to wake up

31m 

Just enough to feel a feeling of terror and know that I'm about to die

it was a horrible realization

That this is what it is like to die

I'm at IHOP now

30m 

I have no hyperarousal

Feel like I'm going to die

Felt like this for the entire drive here

29m 

I was kind of vibrating

^i wondered if I'm having a heart attack

This has never happened to me before

And that was a bummer

Because I see what my last moments will be like

If I die in my sleep

Most likely the act of dying will cause me to wake up

We are very possibly at the end here

I am so destroyed and so weak

My mother upset me last night

And I felt like I was going to die

33m 

I almost died at least twice last night  
in bed

I think it was actually many more

But it was like my system was about to  
shut down

I was kind of vibrating

32m 

Or my system was

Like a car struggling to start

Or about to die

It was accomplished by a feeling of terror  
each time
