**Please make them make it right**

I am extremely unwell. This battle is too much for my body. I get weaker all of the time and I will not make it. I am pulverized and barely alive.

I am thankful for the efforts that you have made, as I believe you have made efforts and done things to help me.

I have pleaded to you for help, after being horrifically victimized. I had an open and shut case in March of 2020, but you didn't care to look at it without a better complaint. I made a better complaint, as a disabled man who was still being subjected to crimes. I killed myself to organize my evidence on a web portal.

I sent you this in October of 2020, already worn down severely by this crime wave and this brutal fight, all endured as I am severely ill. I needed help ASAP. I expected more help before this point. I wasn't counting on having to endure this much longer. I am running out of energy to plead for someone to save me. I believe that you may have been convinced that these crimes I allege did not occur. I promise you that they did. This stay at novant health in October 2020 was a crime. Atrium health's medical records are all fraud. If those are being used as evidence that what I say occurred did not actually occur, this is yet more crime.

If I lose this fight, Wells Fargo will be a murderer. Please help me ASAP.

Clint Williams
