### **What I need**

**To:** "Division, Criminal (CRM)" <Criminal.Division@usdoj.gov>

I am under terrible stress and it's killing me. It may prompt me to take action to get attention on this situation. I don't want that to happen, but I am worried that my self control will give in. What would help is if you could arrange for my mother to make sure that my rent for sept is paid. If she will give me some assurance, that would help tremendously.

I am doing everything I can to make this work out good for you and to let you take it easy and be stress free. I have no desire to fight and none of my actions for the past 8 or 9 months have had anything to do about having a desire to fight.

I am going to type some documents to explain this and some other things. I will no longer send audios. I can be much more organized in my communications in writing.

I am doing my absolute best to look out for your interests and make this situation work for you. By you, I mean every single person who reads this or is on the other side.

Warmest Regards,

Clint Williams
