Thank you

To: "Division, Criminal (CRM)" <Criminal.Division@usdoj.gov>

Thank you for your efforts and for accommodating my neediness. I very badly need your help. I cannot forget about this situation because of my terrible suffering and the nightmare that I face. If you help me as I ask, I will be much less needy. I will give you a three week to one month break from emails. If I get help on a recurring basis, I can tone them down that much more. You won't get many at all then.

I am getting tired of this matter too. It has consumed my life. If my disability gets approved, I will likely take one full month away from this completely. If disability finds things correctly, I will get a 12 to 15 months back pay check. Should be 15 months. That will take my stress away. You will obviously get a break when I get that break. I will probably take 2 months, or even 3, actually, away from this completely if I get disability.

I need atriun to help me. I will run out of adderall by the 18th or 19th, maybe sooner. I need this medication and they know it. I am disabled and my life is melting. It is further melting over crimes that they participated in.

--

Warmest Regards,

Clint Williams
