Break from this

To: "Division, Criminal (CRM)" <Criminal.Division@usdoj.gov>

I just remembered that I told you that if I got approved for social security, I would take a month off from this situation. I do this for your benefit and mine. I will do this so as long as atrium fills my meds. This latest scam with my meds is yet another victimization of me. You are trying to cripple and handicap me by loading me up on one medicine and taking the other one away. You get this idea from my audios.

This situation is killing you and its killing me far worse. I came to you for help. I came to you for justice. I would like for you to refocus for the month off, after my meds are filled. I would like for you to think of ways that we can handle this situation that involve helping me with what I need.

I promise that this can be handled. I need to be involved. The whole thing has gotten way out of hand. It is heading towards a disaster. If you contact me and put me in the process and in the loop, I can work with you to make this ok.

Right now, what we have is me being a terribly suffering disabled man. This terribly suffering disabled man is getting pounded with more than he can take. This is counterproductive because this disabled man has limits for how much he can suffer, and the behavior that results can not be optimal for our situation.

I am not angry with you over this last thing, as long as it is made right. Have them give me, a disabled man, the medication that he needs to function. I kept 90% of my last promise and I will do everything that I can to keep this one. You can rest for a month. I just need people to be kind and helpful to me. I have no guide for what I need to do to get help. I never know what is going to happen to me, and I suffer continually. If I could be part of the process this would be easier on everyone.

--

Warmest Regards,

Clint Williams
