I really need my meds

To: "Division, Criminal (CRM)" <Criminal.Division@usdoj.gov>

I understand that this situation is stressful for you. I am on your side. I want things to work out good for you. There isn't much of me left and I cannot take any more pounding and abuse. My life in Charlotte is looking to be saved by social security, but I've got some things to do to secure my rent for next month. After that, i should be getting payments. This situation is almost over for you if you will just help me. I need to be able to function so that I can save my life here. I am on the home stretch. --

Warmest Regards,

Clint Williams
