Please understand me

To: "Division, Criminal (CRM)" <Criminal.Division@usdoj.gov>

My life in Charlotte is what matters to me more than anything. I understand that you have constraints. If it is the case that my situation is relevant to the economy as a whole, then obviously this ties your hands. I do not see this situation as being as such. I will defer to your opinion. You are in charge

I have extremely strong feelings tied to my life in Charlotte. It is almost completely saved for the short term. I just have to do a few more things. I cannot take any more. Please be kind to me. I am a dying man.
