### Here are the audios

**To:** "Division, Criminal (CRM)" <Criminal.Division@usdoj.gov>

In these audios, I ask you to please think about me and consider possibilities where we resolve this by helping me and where we make this right for me. It can and will all be over if you help me. This situation can disappear and you can rest easy. I will help you. I am on your side. You mean well in your dealings with me, and I mean well in my dealings with you too.

P.S. I think in these I mention how it is humiliating to email you so much asking for help. It may not be that humiliating is the right word, but I just feel so terribly helpless.
