Just do this to help me

To: "Division, Criminal (CRM)" <Criminal.Division@usdoj.gov>

There is this recurring concern "what would it take for you to forget about Wells Fargo." The answer is for my life in Charlotte to be secured. At this moment, I have a way to do that without Wells Fargo making it right with me.

In the short term I need my adderall filled. I then need an appointment ASAP to talk about getting it upped to 60mg. If they could just up it to 60mg on this thing at sept 1st, that would be ideal.

I am almost certain that 20mg Zyprexa + 60 mg adderall would allow me to work again. I could fend for myself in my life in Charlotte.

The problem is that you are ruthlessly running scams and seem to do so with no concern for my well-being or the things that concern me in life. This massacre of my new life must cease. I would like for you to send me some sign that there will be no further abuse or further scams. Please send it fast.

--

Warmest Regards,

Clint Williams
