**I'm terrified**

**To:** "Division, Criminal (CRM)" <Criminal.Division@usdoj.gov>

I'm terrified about your next wave of abuse. I am at a point where I am ready to end this issue. The problem is that you give the appearance of being totally self centered and also ruthless. I am worried about my life in Charlotte. I'm worried that you will compromise that. I am worn down extremely and my suffering has went on for too long. I cannot take any more crushing abuse. I need these people at atrium to work with me. My mother can come to pick up meds on September 2nd.
