**Please help me**

**To:** "Division, Criminal (CRM)" <Criminal.Division@usdoj.gov>

I believe in you. I believe that you are my friend. Please let's end this situation. If they can give me my adderall back, and also up the dose to 60 mg, I will be able to have a life. This is the most exciting thing that has happened in 2.5 years. I will be on good terms with everyone and I will wish Wells Fargo well in building its business.

My life is on the verge of collapse if I am not able to do something to save it. This is a deciding point. Reaching out to you has solved my problems in the past. I reach out to you with this request. I need your help badly.
