**Will you help me**

**To:** "Division, Criminal (CRM)" <Criminal.Division@usdoj.gov>

I am a destroyed and demolished human being. My life is a permanent crisis of one demand I cannot Meet after another. I never get to relax, even for a minute. It's always more pounding. When AU girl first came on the scene, my mother got money from her retirement and I didn't have to worry for a brief time. Man what a relief and what good times those were. I wish so bad that you would give me AU girl back.
