You can save my life for the short term. I need \$5,000 to pay rent and court fees. Then I can keep my apartment in Charlotte. I think that would buy me out of the eviction.

Then you could help me month by month, until you figure out what to do.

Otherwise you are likely to be in the media and I am likely to die. I can't take any more of this and it is going to get worse.

You may not care if I die. Other people will care, and it will be no mystery why I died. It is in your own best interests to not be a murderer. I hate to be so blunt but this is reality. The situation I am in is very dire and serious and what has happened to me is terrible.

You are just going to watch me die. I can't help but plead with you anyways. I live in torment and terrible suffering, and you could make it better.

Warmest Regards,

Clint Williams
