I should not have to explain my private health information to you. I owe you not one bit of apology for those records and you owe me an apology.

Any conclusions you have drawn about my character from this records are wrong and cruel and unfair. It is not your business to diagnose people or to interpret healthcare records. It is your business to punish criminals, like the criminals who obtained my healthcare records.

I am a good and kindhearted man. That is the truth of it and the end of the story. This would be evident to you if you knew me. The layman can judge me quite well when he or she has not saw those records. This works out when everyone plays by the rules because laypeople aren't supposed to see those records.

The reason that this has turned out so poorly for me is that I had faith in the justice department. You were the key piece for me to get justice out of this. You could hold this bank accountable and take some of the burden of this fight off of me. I could get others to help me then too, like attorneys.

Instead you have done what you have done. You have cruelly participated in crimes against me. You have not given me any help or any justice. You have sided with criminals 100%. I ask you to please stop this and to please do something to help me. My life has been cold bloodedly and cruelly stolen. I am doomed to a life of pain and terrible suffering if you don't help me. I'm asking you, begging you, pleading to you, please help me.

Warmest Regards,

Clint Williams
