I hope you realize that I am really going to die. Your behavior is odd. I would think you would want to prevent this with the simple offer I have given for a small settlement and to get my medication back. I would imagine that you wish to be something other than a murderer. I am a decimated human being as a result of being massacred by a \$2 trillion bank and also the abuse that the doj has sponsored. You are torturing a disabled man to death. Please stop this insanity and help me.

Warmest Regards,

Clint Williams
