I am extremely weakened

To: "Division, Criminal (CRM)" <Criminal.Division@usdoj.gov>, civil.feedback@usdoj.gov

This banks conduct is going to cost me my life. I am weakened very badly. My weakness got a little better but is getting worse again. The doctor at cannon hospital told me that he thought the stress I was under in this battle was the most likely explanation of my heart problems. I told him how I lost 30 lbs in 4 weeks, from stress alone. This is what I am certain has caused my heart problems, and why I am almost certain to die prematurely. I felt my system being fried. When you add this to the relentless, horrific stress that I was under for years, it amounts to something that would kill anyone. Most would not have survived this long, I would imagine. I counted on you for help. I needed you to take some of the burden of this fight off of me and to provide me with relief. You instead massacred me with a brutal criminal assault.

I am going to set up an appointment with a cardiologist. I can't afford it but I will do it anyways. I don't know what will come of it. My prospects for life are very limited. I am going to mostly suffer for however long that I live. I am facing a life not worth living. It is in my rational self-interest to die. I will still face a life not worth living if you help me, at this point, most likely. Still yet, you could make a big difference. I always wanted to help people and it kills me that I will die without being able to. I could also have some comfort, in this horrible condition that I am in. This is opposed to living in this torture chamber apartment, where I am tortured by my living arrangements and the conditions here, on an almost daily basis.

--

Warmest Regards,

Clint Williams
