Re: This is not likely to be over

You'd be surprised at how easy it is to smooth things like this over. We've got a much more massive pile of crap than we started with. It would have been easier if it were just Wells Fargo's actions that needed explaining. Now I've got to explain away the behavior of the Justice Department. This still amounts to nothing.

It is possible that I'm wrong about this, but I doubt it. The key piece is that I do the explaining, as if I'm on your side. You may have a very hard time otherwise.

Most likely, you've got a plan in place. It will involve extremely dishonest tactics, dishonest attempts to character assassinate me, and probably a propaganda campaign. Your sole mode of dealing with this seems to be to go on the aggressive.

You're big and powerful and people tend to be irrational. A lot of people are also lazy, and damn near everyone is (for the most part) sufficiently self-centered for your purposes. You've got a shot with a full-on aggression strategy.

It will be easier doing it my way, and in the long run I will be able to beat any and all character assassinations and expose any propaganda. The facts favor me far more than they favor you.

I have a sense that you will have some explanation, some defense, some rationale. Everyone on the other end is a person with a high opinion of him or herself. Everyone on the other end wants others to think highly of him or her. In this, your conduct poses a real problem. You have behaved in a terrible way. Then you add to this that I have brow beaten you for over a year. It won't surprise me if you have went completely insane and offer some explanation that is from Pluto.

Warmest Regards,

Clint Williams
