I got hostile. You have to overlook me. I can't help it. I, of course, tell you off all of the time when I can help it. You're going to have to give me \$10 billion or at least split the difference. I am a completely ruined human being. I get these hostile feelings and I am just dangerous. I will have to live alone for the rest of my life and I will not be able to be around people. I will, at most, have a handful of people that are thoroughly debriefed on how to be around me. I get so incredibly distressed too, by working. My brain is broken severely. I don't think you should get off the hook for anything less than \$4 billion. \$10 billion is extremely fair too. I hate the way that I suffer.
