You've got more and more points in your favor all of the time. It is a mistake to trust you, and I'm obviously incredibly naive. I want to see some humanity in you, and there is none there, not for me. You have to defend your own sense of self, and your conduct towards me is a threat to that. It's got you in tunnel vision. A \$2 trillion bank disabled me for life, for no reason whatsoever.

---

Warmest Regards,

Clint Williams
