You would probably be happy if I ended up dying, as long as you are not exposed. That's cold blooded and inhuman, but there is a rationality in it. I myself am a crime scene. I am evidence of your crimes, as long as I'm alive. There is something extraordinarily bad wrong with me, and it is because of the extraordinary damage this senseless crime spree has caused me.

We could have settled this for a conversation 6.5 years ago. We could have solved this by Wells Fargo being running its business appropriately 7.5 to 8 years ago. We could have settled for pennies on the dollar at any time. You may get your wish.

Your assumption, that I can handle an unlimited amount of cruel abuse, is based on bad physics. I keep telling you that you're going to kill me. It does nothing to stop you. It seems like an inevitable result, that you end up killing me.

Clint Williams
