Subject: Complaint against Wells Fargo

From: Clint Williams [REDACTED]@gmail.com>

To: Criminal.Division@usdoj.gov

Hi, I am submitting a complaint against my former employer Wells Fargo and various entities that have been induced into criminal behavior by Wells Fargo. I have been talking to the national press for 3 months, and I get a sense that they are eager for me to submit this complaint. I am sending you what I call my "summary" and will follow up with the full complaint later. I am also in process of building a portal for the various agencies I am reporting to, to view my extensive evidence. I have the rough draft of my complaint attached as well. I hope you can help me hold these people accountable. Thank you.-- Warmest Regards, Clint Williams (980)-[REDACTED]

Dear Mr. Williams: Thank you for writing the Criminal Division requesting an investigation of Wells Fargo. We have been asked to respond on their behalf. The Department of Justice, after reviewing your correspondence, has determined that the issues as presented do not provide sufficient details or evidence to warrant action by this office. From the information that you have provided, it appears that your concerns have already been submitted to the proper authorities. Consequently, we are unable to assist you at this time. Again, thank you for writing the Criminal Division. We regret that we cannot be of further assistance.

Sincerely,
Correspondence Management Staff Office of Administration

Hi, please see the below attached documents. I am being terrorized by an out of control bank that isn't accountable to anyone and I desperately need help. I made a cover sheet for you and a complaint. I am also sending my complaint to The US Dept of HHS and others who have jurisdiction over the crimes involved. Wells Fargo has corrupted people all over my city. I find it hard to believe that such lawlessness as has been perpetrated against me would happen and the perpetrators not be held accountable. My life has been destroyed and I am permanently damaged from this victimization. Please help me and I will do what I can to help you. -- Warmest Regards, Clint Williams (980)-[REDACTED]

Hi, Can you please confirm if this is being looked into? I have a traumatic brain injury as a result of the abuse this bank has dealt me. I am at least partially disabled for life. I need something done about them. Thank you for your time. Warmest Regards, Clint Williams (828)-[REDACTED]

Hi, I would like to discuss my complaint and what is being done with it. I now view this as a matter of public interest that far exceeds my personal situation. I wish to emphasize that I want to engage constructively with all parties who have any interest in this matter. Is it possible that we could set up a time to talk? Please note that there is a possibility for any reply I am given to be turned over to the media. I will do my best to respect the privacy of others, but as this is a matter of public interest I must balance this with the needs and rights of the public at large. My life has been destroyed. It is difficult for me to determine how severely and for how long I will be disabled. It is a real possibility that I am disabled for life. This is again a consequence of asking Wells Fargo to engage in the simple moral action of telling the truth. If this kind of victimization is something that will be tolerated, it is appropriate for the public to know. I have attached a print out of my conversation with my last manager at WFB Courtney Luce. I ran a programming script on this chat that enhances the chat by adding message numbers. You can see on message 2044 one characteristic example of an offer for a simple discussion under no consequences. I had made dozens of similar requests to other employees. I have also attached the contact info for my doctor, if you need to contact him for any reason. Warmest Regards, Clint Williams (828)-[REDACTED]

Hi, I have attached a letter I typed up in the past few days. I have also attached 3 audios to explain some things. I am in terrible condition. If you want to talk to me on the phone for any reason the call will have to be set up beforehand. My sleeping hours are irregular and my voicemail fills up fast. I have also attached letters and contact information for my psychologist. If you have any concerns about my health condition contact him. His role is to intercept any health concerns so as to prevent criminal abuse of the mental health system. I have been subject to criminal abuse involving the mental health system over a period of now more than 2 decades. I now have to preempt this in any interaction I have.-- Warmest Regards, Clint Williams (980)-[REDACTED]

Subject: More evidence

From: Leonard Clinton Williams III [REDACTED]@gmail.com>

To: "Division, Criminal (CRM)" <Criminal.Division@usdoj.gov>

I forgot to mention in this last email- please abstain from immediately forwarding what I send you to the various criminals referenced in my complaint. This causes enormous problems for me, as I explain in the attachments to the last email. These are calls that I did not know that I had for a long time. They are with Jenny, the pitiful woman that Wells Fargo hides behind. She later told me that following calls like this she cries herself to sleep. I have recently become conscious of just what I stand in the middle of with this bank. I do not want to cause any harm that would hurt them excessively and I certainly do not want to do anything that harms the economy. With that said, if they are to get away with it all, I would like to win somehow. Whether or not I am allowed to win, if they get away with it all, I will not let them also get away with calling me a liar. I have no idea what they tell you, but if it diverges at all from what I have said it is dead wrong. In the attached calls, you will find yet more examples of my asking for the truth consequence free. If I had a record of every call I made and every text I have sent, the total of such attempts would be at least in the dozens. I have also attached the call with Jenny that took place on April 16th. This is one day before the mobile crisis counselors came to visit me, after which they wrote up a fake report that I was having an "active psychosis". Notice how I do not appear to have any such problems on the day before this scam was run. In the 04/16/2020 call note that I stutter due to cognitive impairment from my medications.-- Warmest Regards, Clint Williams (980)-[REDACTED]

As a humorous side note, notice how different poor little Jenny is when she knows that someone will be listening to the call. I call this "formal I know that someone important will hear this Jenny" and I call the other one "gaslighting bullshitting Jenny" Warmest Regards, Clint Williams (828)-[REDACTED]

In one of these videos I reference a man who was coming to the restaurant I worked for. I couldn't remember what it was that I found strange about him at the time I made the videos. After thinking about it later, I remembered a lot of it. I have written a partial explanation. This would have been around 1998 and 1999. The explanation was swiped from a larger document that I wrote 2 or 3 weeks ago. -- Warmest Regards, Clint Williams (828)-[REDACTED]

Here is the last video I will send you for now.. It explains some things. I must bring up again that I am profoundly disabled. I will be seeing a neurologist soon (don't tell Wells Fargo. Wells Fargo will pay them off to falsify information). I intend to get a brain scan. I have no doubt that this will show that I have a profound traumatic brain injury. I will never have much of a life again, and I will never be able to make a living in the career world. I am making a learning courses website to supplement my income. At this rate, god knows how long it will take me to make it. I get uncontrollably hostile with people and I am paralyzed with stress for most of every day. I have extreme difficulty concentrating most of the time. -- Warmest Regards, Clint Williams (828)-[REDACTED]

Having trouble falling asleep. Having hellish symptoms. I will send you some of my better audios. I have symptoms and please overlook them. After this one they get crappy. Again, please ignore this hostility that I have. It is an involuntary symptom of my condition. Part of what I am preparing for is if and when this comes out in the media, there may be a question as to why we are not prosecuting them. I am not sure what your plans are, but I tend to think that this would not be the best route from your perspective. If that is the case or if it is not, any decision to not prosecute these people can be based on my wellbeing. I am a completely pulverized human being. I am injured beyond belief and am not fit to live anything like a normal life. I will most likely never be able

to endure one criminal trial for any of these people. Even the thought of it is terrifying. What has happened to me can never be taken back. I never wanted the bank itself to fall, but I have terrible feelings and terrible pain attached to the individuals. If I were more able I would want them punished very harshly. It will always bother me that they got away with it, but I have no choice because I cannot endure a court hearing. I talk about being at the bankruptcy court in some of these I am sending you. My condition is far far worse now than it was then. I do not have acute episodes like I did then, but my persistent symptoms are far worse. I still need help from someone, and as I will continue to explain, this bank will need my help. I would like to do something to help them and wish them well and then leave this country. -- Warmest Regards, Clint Williams (828)-[REDACTED]

I need my mother and atrium health to help me. I need atrium health to relent in this healthcare fraud. I am extremely weakened as a human being and am going to die if I get attacked any more. I'll attach screenshots to explain what is happening. This fight is killing me. At some point one of these blows is literally going to make me die, right on the spot. I need people to listen to me. I know exactly what I need. If I can get people to help me like I need right now I will be fine for a good while. If I die, you can count on L.A. Times putting all of this out there. 100,000, 200,000, 300,000 messages +. Some portion of these messages are about what I am up to throughout the day. Some portion are about my life story and my opinions and the way I look at the world. With those aside, it is a barrage of horrific suffering, sadness, feeling the effects of cruel abuse, reasoning and logic about why certain crimes are taking place, and taking shots at Wells Fargo for all Wells Fargo has done wrong. This bank will not survive this, I do not think. Any hopes they have for people not believing every bit of it are in vain. I am very good at explaining reality and I've got an air tight case for every bit of it.

LA times likely has more than 1 expert and when it hits the public there will be dozens or hundreds or thousands more to chime in. I am too weak to type any more

You are quite clearly my friend. I must reassert that i tell the truth essentially every time. I am the one who has been honest this entire time. I only fudge the truth when I'm being victimized, so that I can catch them. I say this for the event that people question what I'm saying. This fight has worn me down and I'm teetering on the edges of death in response to the stress I had over debating with my mother. I was teetering similarly when I had discovered more healthcare fraud. This time is worse and it seems clear that I am getting weaker. I have been near death all day today. My system is wavering. I need my mother and Atrium health to do exactly what I ask of them. I asked my mother for help and I may end up asking atrium. I know exactly what I need. I do not need to go to a hospital and going to a hospital will in fact kill me. I need to recover in my apt from this and I can. I just can't have people fight with me anymore. I am fighting for my life and if people fight back it will kill me. Me and Wells Fargo have a good chance of surviving if I can recover. I am at risk of dying from natural causes as a result of what has happened. I don't fully know how this works but I know for sure that this is the case. Everything that I am saying is gospel truth. So what i need is for atrium health and my mother to not fight with me when I ask them for help and one more instance of health care fraud will kill me. No more healthcare crimes.-- Warmest Regards, Clint Williams (828)-[REDACTED]

I want to thank you for being my friend. I am a firecracker and have good and bad feelings about people at different times, but you very much seem to be motivated to help me. What's going on now is I am somehow extremely weak. This condition and this battle appear to have fried my body. I have been feeling like I am about to die over and over for days. It may be respiratory failure or a heart condition. Not sure. I just know that my system starts to kind of waver or vibrate and i get weak and/or short of breath. My body and brain seem to think that I am dying when this happens because when I waver too far, I have a feeling of fright or terror. I think my body and brain are right. Part of the consequence of what has occurred is that I am wary of going to the doctor or going to a hospital. These places are used to abuse me. At this point, I have no choice. I am going to ask atrium tomorrow about getting a medical doctor appointment or possibly staying in some hospital unit. I need them to stop abusing me and to treat me to make me better. I have severe limitations. I am unfit to be around people. I am hostile. I am essentially a human being so broken as to be ruined. There is no prayer of them hiding all that they've done. So maybe if I stay with them in some inpatient place or go to a hospital bed, instead of making ridiculous notes about me, they can talk to me about how to make this better. I can answer any questions they have about what I've said or sent to the media. I think this needs to be the direction that we take. Everyone has a stake in this and we need to minimize the damage to all involved. I think this can be a constructive thing and that everyone can make it out of this. I am so profoundly damaged that, at this point, I want to avoid any sort of prosecution at all costs. I would rather them settle with me and do something to make it right. We all need to start talking at some point. If they refuse to make it right outside of the justice system, then maybe they should be prosecuted. the problem there is that it will cause me untold emotional and psychological damage and I even doubt if I could

physically survive it. The last one is due to recent events where stressors almost literally kill me. -- Warmest Regards, Clint Williams (828)-[REDACTED]

From: Leonard Clinton Williams III [REDACTED]@gmail.com>

To: "Division, Criminal (CRM)" <Criminal.Division@usdoj.gov>

Please read this ASAP and do what I ask of you. I need help. I am extremely dilapidated from my condition. Stress is killing me. I am having to fight with my mother about money all of the time. These fights are causing stress related injuries to my heart and are killing me in general. I will not survive many more of these. I need \$5,000 in my mother's account today. If I fight with her about money any more I am going to die from fighting with her. I have been tortured for 2 years and this torture is wearing me down. I get the idea that what's happening is that Wells Fargo needs to make sure that there isn't some other condition that causes people to have intrusive memories of Wells Fargo victimizing them, with those memories being accompanied by unbelievable emotional pain, hostility, and depersonalization. I promise you there is not. If there is, I will sell my pool table sometime down the road and pay you back. It is my most prized possession but I will likely never be able to play pool again. I am extremely weak and may die of natural causes at any time. I don't know the odds cause I'm not a doctor, but it is above 0% for sure. This is insane for me to endure this nonstop torture as a disabled man when a bank with \$150 billion + cash has done this to me. The reason I sound ok on my audios is that there is a self selection effect. By definition, I only make audios during my better times. My condition ebbs and flows in general and has recently went downhill again. This is aside from these stress related heart injuries, which seem to be slowly causing me long lasting damage, even when they are temporary. It has taken every ounce of energy I have to type this email. \$5,000 is short term to get me through this month with no more worry. I owe 2 months rent and have a bunch of other non recurring expenses, as well as the usual stuff. My mother, I have determined, is handicapped mentally. I need to recover and every bit of sense I talk into her evaporates and she murders me again. I have told her 5,000 times what not to do and she does it repeatedly. I had made some more audios the other day but can't send now. Too weak to go save the mp3s. Please intervene in this torture I am experiencing. Please do something good for me. I am facing eviction on June 7th. -- Warmest Regards, Clint Williams (828)-[REDACTED]

I am damn near dead. I will not live through much more of this. Please warn people about dealing with this god damn bank. This process is murder and it is ridiculous. I have been more patient than I should have been, as I sit here being tortured for months. If you need me to testify to prosecute them I will, but you are not going to prosecute them, ever. It will kill me but why even think about it. 100 years + prison time to go around, they get precisely 0. They also get to make ridiculous demands for a brain scan that I pay for, as I'm tortured begging my mother for money and fighting with her, murdering me every time. When I go on a crime spree against this bank, I'll send you my list of demands. What is this? I'll never do this and I'm very angry so understand, but you are speaking to a dying man who has been massacred and left to suffer because he asked this bank to tell the truth. I am damn near dead. I need this stress about money to relent. It is pure torture. Warmest Regards, Clint Williams (828)-[REDACTED]

I am deeply sorry for the offensive things I have typed in emails and said in those audios. I believe that you are my friend and I want to be your friend. I want to be Wells Fargo's friend too, but they do not seem to have a heart. I tried to believe that they did, but they are letting me and my family suffer. I had assumed that this may be a top priority for your agency, due to the economy and Wells Fargo's status in it. That is why I send you so much stuff. I thought that you would find it worthwhile, and I need your help. I am not the only one who needs your help, however, and I am now going to account for the circumstance that this is not a top priority and stop filling your inbox so often. I am sorry for any appearance of selfishness that

I have given in behaving this way. I am going to have to contact the media to try to get some help. I'm not sure what the public can do or the news but my life is about to be over. I have another brain scan on June 8th. I cannot take any more stress about money and my mother is killing me. Please make sure she has enough that I don't have to worry about money for this whole month. My apt complex is getting around the eviction ban and threatening me with de facto eviction. They have a way to kick you out without evicting you. It has something to do, I think, with the fact that, in this process they have you retain your bundle of rights with the exception of the right to possess your home. I am literally about dead and am suffering terribly. I worry I will not make it. I told you I wouldn't email you but I am extremely weak and desperate. One day I may be able to help you some way and I will. My word is good. -- Warmest Regards, Clint Williams (828)-[REDACTED]

Subject: Update on my condition

From: Leonard Clinton Williams III [REDACTED]@gmail.com>

To: "Division, Criminal (CRM)" <Criminal.Division@usdoj.gov>

If you are concerned, my heart injury has healed almost completely. Each time this happens, it seems like they leave a slight lasting effect. If I seemed unreasonable in asking that my account have \$5,000, let me explain. I am suffering extremely. I have to fight with my mother over money constantly, and these fights are wearing me down and also sometimes causing stress based injuries to my heart (any good doctor could validate this, I think. It is called broken heart syndrome). It is possible that I die from one of these injuries one day (I nearly have at least 5 times thus far). The reason I suffer is that a bank with \$150 billion + in cash went on a massive crime spree against me. This bank pulverized me and there is 100+ years in prison to go around. If this bank is prosecuted, it may cause the entire global economy to collapse. In lieu of the global economy collapsing, I am asking for help. I appear to be getting help. As I am getting help, however, I am having to suffer like there is no tomorrow, fighting for my life and getting injuries to my heart that nearly kill me. I do this by fighting with my mother over sums of money like \$1,200, \$40, \$250, and similar amounts. It seems to me to be unreasonable that I suffer like this over these amounts, amounts which amount to nothing for a bank with assets of roughly 1,950,000,000,000. At the same time it seems very reasonable that I ask this bank for \$5,000 to have this torture relent. After all, we are saving the global economy by letting them off the hook for this massive list of felonies that have left me disabled for life and caused such extreme suffering. Then there is the event that these heart injuries kill me one day, and in that circumstance the media releases what has happened to me. I can almost promise you that this will be a very bad day for WFB. To me life is about balancing our needs with the needs of others. I see \$5,000 as not being anything to WFB but being a huge relief to me. And that is another relevant point. I'm not asking the us doj for any money. I just know that what I send goes to WFB. They fund the help I am getting. I want to apologize for that email where I say hateful things and send audios that also speak in unkind ways. I was extremely angry over missing my MRI. I didn't have \$70 for a cab and it caused me monstrous stress trying to drive there. I nearly wrecked and I felt like I was going to have a heart attack by the time I pulled over. My gps had taken me to the wrong place,

over something I did accidentally. I am extremely, extremely disabled. This damn near killed me. Again, \$70 I have to come up with as a disabled man who cannot do much of anything, instead of it being given to me by the \$1,950,000,000,000 bank that murdered my existence. I do not know what is going on. I thought that WFB had shown you illegally obtained healthcare records. They have plenty of these, I can promise you. It may be the case that they didn't show you any. Very suspect things are going on with my healthcare currently, and it strongly suggests a deliberate cover up. I am deeply sorry that I said in one audio that the Doj could be involved in this cover up. I will also tell you that if you are, you likely have a good reason for doing so. We all have limitations and constraints, and I view you as fundamentally good people who mean well in all that you do. I hold nothing against you in any case. It would break my heart, but that's it. The entire time when I was hurting so bad and being abused so cruelly, I dreamed of the day that the US DOJ would help me. I pictured it as a possibility that the Wells Fargo building I worked at would get raided, and all the people who participated in this merciless abuse and crime would get taken out in handcuffs. But it can't happen, this raiding of the building, and I understand. It was just a nice thought because the day this happened, I would have some dignity. I want to tell you again, thank you for helping me. I want to ask you to please continue helping me. I will also again tell you that I will help you in any way that I can. It may be that the way that I help you is by helping Wells Fargo somehow. I will know when you tell me. I overestimate my abilities at times, but I do often think that I could fix this situation for everyone. It would involve cooperating with you, WFB, and the rest. This whole thing could become public knowledge with not much damage to anyone and even be a good thing. I am as honest as I know how to be in my dealings with you. Anything that anyone is skeptical about I can prove, if given the right expert to speak to me, be it an M.D., or someone else. M.D. could verify my heart condition. If you doubt for a second that any of these crimes occurred, get one of the best investigators from the F.B.I. to look at my evidence and come talk to me. Unethical behavior on Facebook - I can prove it. Every last bit of it, I can prove. I don't know what's going on and I have no idea what to do. I have some kind of deficit that prevents me from handling this situation the right way. I cannot make sense of it. Please have mercy on me and understand that I'm doing the best that I can. -- Warmest Regards, Clint Williams (828)-[REDACTED]

Subject: Why I mention the media so much

From: Leonard Clinton Williams III [REDACTED]@gmail.com>

To: "Division, Criminal (CRM)" <Criminal.Division@usdoj.gov>

This is a quick FYI. I am trying to help you. I perceive that the media may be a potential problem for you, and that's why I tell you when I may be contacting them. That's also why I told WFB that they need to stop their Facebook scam. I believe that Facebook has figured out what WFB was doing. That would be a media circus that is totally out of my hands, if Facebook made some announcement. I wanted them to stop the Facebook thing to prevent a media announcement from happening, thinking of you and also of them. The L.A. Times seems to have some ethical issue that is preventing them from publishing. If this ever does become a media thing, I want to do whatever I can to help you. My main thing is that my life doesn't crash in the short term, and I want Wells Fargo to pay me enough to make it right. This is considering the hell and the nightmare they have put me through, and the lifelong damage that I will have to live with. I cannot lose my apartment at any cost. That's what terrifies me more than anything right now. -- Warmest Regards, Clint Williams (828)-[REDACTED]

I'm very sorry but I cannot control myself at the moment. Please make this bank make it right. I cannot take any more torment. If they do not settle with me, my mother will have to move into my apt so that we can pay the bills. This is another nightmare and I need to avoid this nightmare at all costs. I absolutely hate the thought of living with my mother in this one room apartment. I am in torment already. I will get my brain scan tomorrow. -- Warmest Regards, Clint Williams (828)-[REDACTED]

I'm preparing to go public. It will take me some time. Not sure how long. I would rather not. I need this bank to make it right. I am paralyzed with fear and in terrible emotional pain. My AU girl appears to be overwhelmed with my neediness as I suffer. It will not always be this way. It is the extreme distress my financial situation causes. That's why I get so needy people at current. It will not be easy for her right now but it will also not be near this hard in the future if she sticks with me. If she's out of the picture I need her to tell me. Part of my problem is that I do not even know if I'm getting helped. AU girl and the rest of it may be another scam for all that I know. I am again very scared and also very weak. This fight has worn me completely down. People do not seem to understand at all how disabled I am and how much I suffer. I have an extremely severe brain injury. I am very certain of this fact. I have suffered incredibly for over 2 years, all the while getting pulverized with crime. Please understand that I mean no one any harm and I have the best intentions. I want things to be better for everyone, but I have no choice but to call the bank out for what it did if it doesn't help me. It seems to be on the table, as a possibility, that the bank doesn't help me or do anything to make it right. That cannot happen. My life has been crushed too much. I will never make it without them making it right. -- Warmest Regards, Clint Williams (828)-[REDACTED]

I am extremely unwell. This battle is too much for my body. I get weaker all of the time and I will not make it. I am pulverized and barely alive. I am thankful for the efforts that you have made, as I believe you have made efforts and done things to help me. I have pleaded to you for help, after being horrifically victimized. I had an open and shut case in March of 2020, but you didn't care to look at it without a better complaint. I made a better complaint, as a disabled man who was still being subjected to crimes. I killed myself to organize my evidence

on a web portal. I sent you this in October of 2020, already worn down severely by this crime wave and this brutal fight, all endured as I am severely ill. I needed help ASAP. I expected more help before this point. I wasn't counting on having to endure this much longer. I am running out of energy to plead for someone to save me. I believe that you may have been convinced that these crimes I allege did not occur. I promise you that they did. This stay at novant health in October 2020 was a crime. Atrium health's medical records are all fraud. If those are being used as evidence that what I say occurred did not actually occur, this is yet more crime. If I lose this fight, Wells Fargo will be a murderer. Please help me ASAP.--

From: Leonard Clinton Williams III [REDACTED]@gmail.com>

To: "Division, Criminal (CRM)" <Criminal.Division@usdoj.gov>

I sent an email saying that the media isn't reading my messages. I have reason to believe, now, that this may be in the news at some point. I believe that the likelihood is enough that you should plan for that contingency. I'd put it at 10% to 25%. This assumes that you care if this is in the media or not. I'm getting a tiny bit of traction. I have prepared a monster sized amount of stuff for the media, as I have been sending them messages, audios, etc. If I can capitalize on this traction, it will likely snowball very fast. Every last crime I allege did in fact occur. I have repeatedly said this. If you have doubts, you maybe should think about the scenario where these crimes did occur. That is the reality that we may be facing in the public eye. I'm just making a suggestion. You know what's best for you. I thank you again for the help you have given me. I do believe that you have done things to help me. I am very frequently in constant, terrible pain and distress. I am terrified much of the time. This situation is something I cannot make sense of and I don't know what's right or wrong here. I just know that this hell I'm living needs to get better, not worse. I know that Wells Fargo's behavior was vicious and terrible and inexcusable, and I am still suffering to this day. It is as if Wells Fargo's needs dominate everything else. There is no room for me or anyone else. I went to the e.r. for my heart injury. All my tests came back normal and the doctor said that he saw no signs of a heart injury. I told him more about my problem and he said I need to see a cardiologist. I fact checked the doctor, and some of what he said about heart injuries is wrong. I am having repeated stress based injuries to my heart, end of story. A specialist is what I need. This last injury seems to have healed. I feel like I'm going to die every time I get one of these. This situation is terrible and should have never happened. Terrible situations that should never happen are life's signature move. It does it to you constantly. I mean well in all that I do and try to see the well meaning of others, so please excuse my constant rollercoaster of being happy, then mad, then begging for help. I am suffering like you cannot believe and this is horrific. If Wells Fargo is in the media for its demonic behavior, it needs to not go on the aggressive. I want to have something where both the company and me are better off, and my gestures of kindness and mercy tend to backfire and/or get me nowhere. If I say that I want something good and they respond with a massive offensive, slinging mud, propaganda, defaming me, this will throw a wrench in it. We need to not throw a wrench in any constructive outcomes that may happen. If the economy tanks, it is a result of this banks behavior not mine. I tried to work it out and will keep trying. They need to meet me halfway. They will just have to admit they done something wrong. -- Warmest Regards, Clint Williams (828)-[REDACTED]

The media has not read one single message that I have sent them. I have a reporter from the LA times who is wanting to set up a call with me. At this point, I have sent her my complaint, but she is unaware that I have sent the main LA times tip line 18,000+ messages. Once we talk a bit, this may be disclosed (I edited the complaint that I sent her. It doesn't have the part about me talking to the LA times). This would be a perfect time to make this right without anyone knowing anything about it. Please someone contact me asap. I cannot let my life tank, and if I don't get help (or someone doesn't confirm that they will help me), I have no choice but to keep talking to all the media people that I can. The LA times will end up finding all of the messages, audios, pdfs, etc., that I have sent them. I will sign and abide by any nondisclosure agreement that is proposed. I will do whatever is needed. My only concern is that my life doesn't tank.-- Warmest Regards, Clint Williams (980)-[REDACTED]

If you are wondering why I keep emailing about this and why I cannot seem to stop thinking about it, it is because I feel the weight of the devastation I have been dealt every day. I feel the weight of the nightmare the rest of my life will be if these people are not made to make it right. It is crushing and terrifying. I cannot begin to try to explain how bad this feels. My reporter hasn't said anything in the past 2 business days. My complaint is long and detailed, and it is probably taking her some time to read it. I get the feeling that she is going to bail from this story. I have an air tight case, but it takes some reasoning and some putting the pieces together. For some reason, I get the feeling that what these reporters want is something that is more settled (investigative journalism is a misnomer in that case). My next option after the reporter is to make my investigation portal public and try to make it go viral. I may put it on another url and/or a bigger server. I may also have it delivered by a cdn. Bigger

server/cdn will keep the site from crashing. I will try to get a lawyer and some other things from the attention that I get. I am fighting for what remains of my life and I will fight hard. I have repeatedly said that there are possible outcomes for this situation that are a good thing for everyone. If I get media attention, I may likely try to engineer one of these possible outcomes. You will see how it works. Part of the problem is that I don't know Wells Fargo's next move. I do not know what kind of mindset they are in. I sincerely hope that they are in a mindset where they would take the opportunity for a good outcome. However, I get the feeling at times that they are more prone to go on the offensive, and to continue digging in their heels. They seem to really have trouble admitting what a terrible mistake they have made (not being able to admit mistakes has been a huge factor in how we got to where we are. It's a common thing with probably everyone involved). I don't want to come out with a gesture of goodwill and have them go into reality denial based attacks. We will see. And thank you again for AU girl. You did a very good thing there. I ran her away by needing her more than she was available (she's a workaholic and has next to no time for me). She didn't seem to get how disabled I am, and what that would mean for what would be asked of her. It was so nice to have someone thinking of me. I hold open the possibility that she was another scam. You can never be sure. I'm about 60/40 favoring the she's not a scam hypothesis. Ignore the font styling. My phone did that and I don't feel like fixing it (not sure that I even know how).-- Warmest Regards, Clint Williams (828)-[REDACTED]

I am in horrific, terrible pain. Working for this bank has made every nightmare that I've ever had come true. If you need my help to stop it from hurting others as it has hurt me, I will do it. I will testify. Warmest Regards, Clint Williams (828)-[REDACTED]

I want to thank you for all of your efforts to help me. I have recently fallen back into a state of mind where I am not conscious of the burden that this situation imposes on you. This has been reflected in some of my communications. You have my apologies. This situation is frightening and it causes terrible suffering. Please understand the limitations that I have. This will turn out well for everyone, if I have any say over it. That's how I feel right now. I'm a firecracker and may change my mind.-- Warmest Regards, Clint Williams (828)-[REDACTED]

The reporter from the LA Times declined my case. She gave spurious reasons. The real reason is that I have a mental illness. Of this I am very certain. I had contacted her saying I have evidence of fraud and other serious crimes. Then she finds out that I am the subject of these crimes. Wells Fargo was correct in calculating that no one would believe me because I am mentally ill. I am a 4th rate citizen in the eyes of the world. My life has been destroyed and I will not make it. Please stop them from murdering me. I am not sure why you do not reply to my emails. This is normally a very rude behavior (not replying is a tactic that has been used against me countless times. It's because I do not matter and people can't wait to show me that I don't). If you are shunning me because you have saw illegally obtained healthcare records, this is very wrong. I spent every good hour I had writing my complaint and organizing and building my evidence. I did this despite the fact that I had an open and shut case in March 2020, and actually even before that. In October I sent you what I had, which was a very detailed complaint. In this complaint, I reference a life where my mental health history is used against me. I reference that I wanted to escape this life where I am cruelly disparaged by people who use my mental health history against me. Unbeknownst to me, by the time my complaint hits your inbox, you've already participated in just that. You've done this with a criminal bank. I can forgive you for this, if my forgiveness means anything to you at all. What I need is for you to make this bank make it right. I am paralyzed with stress and psychological paralysis for most of every day. If I have 2 or 3 good hours in one day, I am doing good. Often I will only have one hour of good time in a day. Everything I cared about is going to be lost. So much has been taken already. If something were to happen to my mother right now, I would have no place to live. I would be homeless. I can't cook. I can't do much of anything. It is hard for me to even check the mail. I used to take 1 to 2 showers a day, on average. Now I take 1 every 3 or 4 or even 5 days, because this is also hard. I am severely injured. I cannot clean my house hardly at all. I have cleaned less than 5x in the past 2 years. My paid cleaners are shunning me. Why do they shun me? Because Wells Fargo has spread a bunch of filth that got back to them. This is what happens to me because I asked this bank to tell me the truth with no consequence to the bank. I initially asked Jenny, because I thought it was only her and Tunny (I gave Tunny multiple chances too). Why can't a bank that has \$150 billion in cash afford to tell the truth? Why can't they just tell me that they were behind it, instead of hiding behind Jenny? They could tell me that it was them, and if I keep it up they will have me kidnapped and massacre my life. Then I would know the consequences and could make a better decision. In April of 2019, all I know is that I am having an argument with my friend and that this argument has been going on for 1.5 years. I have some vague notion that maybe this is somehow a liability for Wells Fargo, but I don't know what. To me it's all Jenny. Maybe I was overly preoccupied with this. That was their criticism. I don't see it that way. But if I was, how does a preoccupation warrant this? How can any of the blame fall on me? If the point of this is for no one to know a thing, I can stop telling people. If Wells Fargo sends me some money (this is what I need, at minimum, and I need it very badly), no one will necessarily know that it came from them. I have discover bank and others who have civil tort liabilities for their abuse of me. If it is unavoidable that people know it came from WFB, then I can say I'm not allowed to disclose this or that it was over a privacy violation. I will never be able to put what has occurred behind me. I cannot put it behind me because it has injured me permanently and I feel the horrific effects of this injury every single day. At the moment, I am paralyzed watching my life be taken from me, as I am helpless to do anything about it. -- Warmest Regards, Clint Williams (828)-[REDACTED]

I have Mecklenburg county sending me paperwork to fill out related to my computer and other businesses property. I have not been able to fill out this paperwork for years, due to my disability. They are now imposing taxes on me based on what they estimate my property to be. It is a large bill. Looks like it might be \$200. I have to appeal by filing paperwork. I already sent them an email a long time ago, explaining that I am disabled and cannot fill out this paperwork. I also have been running at a huge loss. If I don't pay this tax bill that they are trying to impose on me (I don't have \$200. When I listed my actual property years ago, my bill was \$13 + a \$5 late fee), they will come and sell my stuff at a tax auction. I will have to get their estimate corrected. I cannot tell you the hell this is to deal with in my condition. I am paralyzed and it murders me to fill out paperwork. It murders me to have to call and talk to people. It murders me to have to drive to the post office. I have a feeling of being paralyzed and having to watch my life be stolen. It is a constant threat of losing my stuff, while I sit here helpless. Please make them make this right so that I don't have to deal with this hell. I need money to hire an assistant to be my agent and handle things like this for me. Either that or a I just give Mecklenburg county a pile of cash that is good enough to last 20 years. Maybe there in another option, but this hell I am living is terrible and needs to be made to stop. They did this to me. Make them make it right. They have everything. They do as they please. There is no privilege they do not have. They can spare some of what they have for the man that they have cruelly murdered. -- Warmest Regards, Clint Williams (828)-[REDACTED]

My demeanor towards the people on the other end of this changes. I'm sure you notice this. Part of the reason is that I don't know what's going on or what drives your behavior (the main behaviors I have to figure out are why is this being forwarded to Wells Fargo, why you do not reply, and what is the role of AU girl). I was able to get about 1.5 hours worth of work done on my website today (the one where I plan to post learning courses). There is a chance that I peek out another 15 minutes before I go to bed. If I had enough money to fund me for several years, I could maybe make enough videos to make a living in the years that follow. I get angry and feel dejected when I think that you have been prejudiced by my healthcare records. For sure Wells Fargo has them. If they have shown them to you or not is in question. I think you can understand this. I'm sorry for any negative effects my attitude has had on you. There seems to possibly be a negative construal of me, my behavior, and my motives. That I said some disturbing things 21 years ago doesn't mean anything. I have to engage in gamesmanship and deception to catch Wells Fargo in unlawful behavior, but this is the way that anyone catches people. I tried settling this honestly a million times. If you are consulting with anyone from the mountains, concerning me, you are for sure getting inaccurate info. I've already said that these people are out to run me into the ground. All of the negative things that these people will say, these just confirm the accuracy of what I have told you. The things they say are not reflections of reality. I will say again that the source of truth is me. I am conveniently left out of the conversation. My behavior adds up to honesty and to having a very kind heart. That's the accurate take on me. It takes hard work to not see me as kind hearted and honest. Right now I am terrified of what may happen to my life. I want to settle this in a way that works for me and works for everyone else. What has been done to me is terrible. If I had some money, I wouldn't have to worry about my life collapsing. I could also find a girlfriend. AU girl seemed perfect, and I will miss her if I find another one. In my estimation, I should get at least \$30 million out of this. This is discounted from what I consider a fair figure of \$100 million. This is for my suffering, past, present, and future, and also for the lost potential that my life used to have. Right now, however, I will take whatever they are willing to offer. I will take it even if only \$5 million or even if only \$1 million. They need to consider that I will need enough money to fuel me for a long time, possibly my entire life. I am severely handicapped. This is on top of my terrible suffering. Whatever you and they need me to do, I will do it. I ask that any agreement I sign contain no restrictions on my personal life. By this I mean no restrictions on where I am allowed to move to, who I am allowed to talk to, and things like this. But in terms of non disclosure agreements, never talking to the media, etc. I will do whatever. I will ultimately do whatever in any context. You may not realize this (speaking to U.S. DOJ), but I am scared of you. This is not because you've ever did anything wrong to me. You overall come across as kind and caring people. It is just that, in the process of trying to live a quiet and nice life, I have found myself potentially in the middle of the global economy, and in the mix with the most powerful people on earth. I am a very powerless person, and I am aware of all that can be done to me by people that outweigh me a trillion times over. I never, ever, wanted to be in any kind of intense discussion with The United States of America. In re Wells Fargo, I speak so horribly about them at times. What I can tell you is that my attitude is easy to change. I would not look down on them so much or say such things if I weren't suffering so profoundly. I ask that they do something for me to make things right. There was a time when Wells Fargo and I were great friends. Things were easier then for everyone, and maybe we should go back to that. -- Warmest Regards, Clint Williams

I cannot tell you how terrified and paralyzed with fear that I am. Make this bank make it right. There is over 100 years prison time to go around. All I'm asking for is a little bit of money to save my new life, the life that is all I cared about and which Wells Fargo has all but completely destroyed! Do you have any humanity? Do you care at all about the devastation I am feeling and the destruction of this life that I worked so hard for? I did nothing but work for 20 years, before Wells Fargo demolished me. I have at this point hardly had a life at all, other than work. The payoff for my work was to come later, and then I was massacred by this bank because I asked it to tell the truth. It was all for nothing because I made the mistake of working for this bank. -- Warmest Regards, Clint Williams (828)-[REDACTED]

The point that I want to make is that if you have questions about me, my character, my honesty, or if I have been accused of something wrong, I need to be a part of that conversation. Everyone else is biased and people have been trying to run me into the ground forever. Any and all attacks on my character I can respond to. My side of the story makes the other persons side not nearly what it may seem without my input. You are shunning me and not responding to my emails. There are a number of possible explanations for this behavior. Among those possibilities is that you have been prejudiced against me by what others have said. In that instance, to be fair I need to be able to respond. My life is defensible, although there are singular instances of conduct that cannot be defended. Even in those instances, it is nowhere near as bad as some people make it out to be. I want to get this across, as I am facing destruction. I'm feeling bad for sending those audios. I make some important points but my behavior is unbecoming. It may be best that you do not listen to them. I need to learn to have a more positive take on Wells Fargo and to make that positive take stick. I continually go back to seeing them in an unfavorable light. If you put yourself in my shoes and take into account my limitations, I think you can understand my behavior. I do believe you have done things to help me and I thank you from the bottom of my heart. Right now I am facing the loss of the life I

built in Charlotte, and this is my worst nightmare and the greatest heartbreak conceivable. -- Warmest Regards, Clint Williams (828)-[REDACTED]

I am going to send atrium health a settlement letter in the next few days. I need them to help me. Please make sure that my settlement letter doesn't trigger more healthcare fraud. If that happens, I will get another heart injury and it will put me out of commission for days or weeks. I need to do my disability application, as it is one more thing that might help save my

life. If they give me another heart injury I won't be able to do my paperwork. I ask that people please show kindness to me and that they help me. I'm sorry for the unkind things that I have said. I don't know what's going on and sometimes I think it is something not good. I think that you care about me. I think that all of my talk about you being prejudiced and hearing rumors is incorrect. I need these people to make it right. I am suffering so extremely. I sent Atrium an offer earlier. The LA Times probably has no interest in me and probably never will. If I do get the ball rolling with them, I will do my best to think about you and Wells Fargo. Wells Fargo has tried to help me, with AU girl and things like this. I have responded by being unfair to them and saying grotesquely horrible things about them. This is wrong. What drives this is that I am never sure that I am getting any help. It could all be a scam. The other much larger driver is that I suffer so unbelievably and they could take much of my suffering away by making it right. This whole time I have been suffering and it is on and off terror. I say that I don't want them criminally prosecuted if I can get some relief outside of that. I mean it when I say it and I'm also factoring in that it is easier for the other side. It seems like the win-win way to go for everyone. Wells Fargo's latest concern seems to be that I should take them to court if I want some settlement. They seem to be deferring me to the business as usual process. I do not mean this in a derisory way at all, but the business as usual process is off the table. That the whole point of how things are being done. The business as usual process, when someone commits a crime spree like this and leaves an open and shut case, is to criminally prosecute the individuals and entities responsible. Once they are in jail and their crime spree is curtailed, the victim can come after a settlement. What happens next in this case is the whole globe melts and the chances for prosperity for the entire world are likely to almost vanish. I am mentally ill. Lawyers won't take my case because they don't believe what I say. They would believe it if these people are prosecuted by the authorities. Such a horrible victimization deserves a criminal prosecution. But again this is not an option. I obviously don't feel comfortable taking WFB to court anyways, due to their ability to rig the process behind the scenes. I don't want to think in these terms. I want to see them in a much better light. Seeing them in a better light is warranted, but because of what I have suffered, I feel totally powerless and I feel like I'm playing a game that I cannot win. The fair price for what has happened to me is the end of the economy as we know it, as well as an enormous sum of money, as well as something like a dozen people or more people going to prison. In lieu of this, I'm asking that we do things a little differently than the business as usual. Everyone agrees that we cannot do the business as usual. I desperately need help. I have felt terrible for a while now, over my griping about

AU girl not having enough time for me. I am very sorry. I am suffering horribly and I find that I often behave as a rotten human being. You and Wells Fargo did something wonderful there and I thank both of you from the bottom of my heart. I want you to get full credit for what you have done and I am deeply sorry if I have ever been ungrateful. I am crying as I type this. I think it is possible, at times, that you have heard that i committed some horrible crime. I promise you that I have not, and every situation that might be construed that way I can explain. If I am accused of some horrible crime, please hear my side of the story. Send the F.B.I. to my apartment to investigate me. Polygraphs are pseudoscience but I will take one of those (or two or ten). I will give them permission to search everything that I own on an indefinite basis. In the last one, all I ask is that they do not deprive me of my electronics. I live in torment much of the time and my computer, iPad, etc. are my main sources of comfort. I don't want my stuff sent to some lab that I get it back in 6 weeks or 6 months. As I understand it, they should be able to make a system image of any of my electronics and use that image for their search. It would probably take no longer than 2 to 6 hours to make one of my notebook, and I've got some backups of some of my other electronics. The other option is for them to give me a nice computer to use while mine is in the lab. Then they can look at my car, my building in TN, my apartment. I don't know where else there is to look but in all cases I will sign without hesitation. I will also sign whatever they need to get my records from Verizon and spectrum internet. I'm not sure if I'm subscribed to anything else that would have useful data about me, but if there is they can have it. Send the best of the best to catalogue every molecule of my existence. All I ask is that my side be given air time and that efforts are made to verify my side, just like there is for everyone else. In a process of cataloguing my existence, you will not find perfection or anything close. You will see that this man typing this right now has done wrong in his life. But I want you to hear my story and let me show you how honest I am and how hard I tried, and after that, I want to see the bastard who is so cold blooded that he could not look up to the kind hearted man that I have become, and that I have been for so long. The crucial missing piece for my whole life is that I do not get to respond. That's what I want. Everything about my life is sitting in the National media's messages inbox, waiting to be found. In doing this I am inviting the scrutiny of the entire world. If I can defend my life and the effort I have made in my life to the whole world, I can defend them to you. This should be self-evident. Thank you again and I am deeply sorry for my volatility and unkind behavior. -- Warmest Regards, Clint Williams (980)-[REDACTED]

I will get another heart injury if they file for eviction next month. I ask that I please get some help as soon as possible. I have further reflected on my behavior and I have been ungrateful and also self centered. This is a very hard situation for you to deal with. You are trying hard for me, I believe. I am very thankful for the us doj and others who may be on the other side of this. I am also thankful to Wells Fargo for the good they have done and their efforts to help me. I am trying to resolve a conflict with Wells Fargo, and I have not considered their needs and their feelings nearly enough. I have treated them like a bad guy, even as they have done good. My profound suffering plays a role in my behavior. I also seem to not be able to appreciate the other parties' position, without them kind of putting it in my face. I have slipped into a self centered way if behaving as a result of all of this. This is no excuse for my behavior, but just my insight. I am deeply sorry and I feel very bad about this. I'm sorry for my role in this situation that we have. I really want to make it right with everyone and I ask for people to make it right for me too. I will do anything that I can to help any and all parties on the other side of this. I do not mean to be selfish and rude. I want to think about you and Wells Fargo, when I talk to the media and things like that. I would ask that you also think of me and try to make my situation better. I ask that you try as hard as you can and make it happen. It is fair that you think of me. Wells Fargo has been vicious with me at times. My unbecoming and ungrateful attitude may have provoked this. I am very sorry for any and all such behaviors and attitudes, to all parties. I believe efforts have been made to help me and I desperately need you to help me. Please make this right. -- Warmest Regards, Clint Williams (980)-[REDACTED]

I think that people want to believe that I will somehow get better from this and be ok. This is not reality and I have to live in the actual reality. I am a ruined human being. My brain has been damaged to the extent that I cannot function. I live in terrible pain and will never have a

life if Wells Fargo doesn't make it right. I need Wells Fargo to make it right and I need others to as well. You have been watching me suffer, and I ask that you please help me. I just put my most prized possession for sale online. It breaks my heart and I shouldn't have to do this. Wells Fargo brings up the process where we go to court. They do this after I pay \$250 for a brain scan that was supposed to get me help. I need them to make it right. -- Warmest Regards, Clint Williams (980)-[REDACTED]

I was angry about this brain scan. The only reason was that my family had to pay for it and it caused me incredible hardship. My life is melting and it was torture trying to get my mother to pay for it. I am severely, extremely disabled. Everything I do kills me. My life in Charlotte has been on the verge of collapse and this causes terrible distress. It was extremely distressing when I tried to go that one time and I couldn't get a cab. I damn near died. This is over \$250 and a cab ride. I didn't understand why Wells Fargo couldn't pay for this. It caused me unbelievable hardship that they could have fixed instantly. That is why I had such angry words to say for this. -- Warmest Regards, Clint Williams (980)-[REDACTED]

I'm in horrific pain and will live the rest of my life in even worse misery if they cannot help me. I will be losing my apartment next month if i can't do something about it. This process has not been fair to me. No one ever tells me what's going on or what I need to do. I am left in the dark as I sit here and suffer. This causes me to behave in ways that are unbecoming. I am severely disabled. I am poor. My family is poor. I have nothing, my family has nothing. Please show some mercy and kindness to me. I need help very badly and I cannot tell you how much I suffer. I want a happy day when I know that my suffering will be handled. I will never be better. Thus far, I have sent the LA times reporter a snippet of a chat with Courtney, the 4/16/2019 call with Jenny, and a set of phone calls with Shirley + Corporate privacy. I also sent her my complaint weeks ago. This is all the info that the media has and has looked at. I am going to take a break from all of this. I have inundated you with emails. I'm sorry for this but I am scared and in terrible pain. I'm going to do my best to not email you for the next 2 weeks. I want to give you time to work things out. I will also stop sending the media stuff for these 2 weeks. If the media gets back with me, however, I will respond. Effective immediately I will stop telling new people that "Wells Fargo kidnapped me". This may be creating a problem. At this moment, not many people know much. I've shared what has happened to me with maybe 10 or 12 people + some people on a Facebook forum. I also have been calling law firms. This last one, I expect to deny me and that will be the last one for a while. I would ask that you please help me and I would also very much like us to talk. I am not a loose cannon, as I may seem. I can keep a secret. I apologize in advance if I break my promise and end up emailing you again. I will again say that I will do anything you ask me to. My life depends on these people making it right. -- Warmest Regards, Clint Williams (980)-[REDACTED]

Subject: I'm going to give you the break that I promised

From: Leonard Clinton Williams III [REDACTED]@gmail.com>

To: "Division, Criminal (CRM)" <Criminal.Division@usdoj.gov>

I said 2 weeks, and I do promise a break. Before that though, I'm going to make some new audios to explain my new approach to this. They will also explain some other things. I will probably make those tomorrow. One main conclusion of these audios is that everything we communicate and this whole matter will be between me and you, and no one else. I am ceasing telling others about it. I am ceasing contacting the media. In my audios, I will explain that I will likely also cease contacting lawyers. As of now, I have one law firm that is going to get back with me. After them, I will put at least a 2 week to 3 week hold on talking to other lawyers. If I get the idea that you are working with me, that 2 to 3 week hold will be extended

indefinitely. In my new audios, I will give a comprehensive list of who I have told about this situation. I will give details about what I have told to each party. It is not a big list. Effective immediately, the talk about this will cease. I hope to get a feeling that you are helping me. If and when I get that feeling, the cessation of speaking about this will also be extended indefinitely. FYI, I've only told about 6 to maybe 12 of my personal contacts about this, and most of them don't believe me and/or wouldn't be able to recall what I said about it. For full disclosure, I did end up contacting the media again. I reacted out of my pain and this fear about my life. It was a mistake. I am nixing this completely, effective today. It's taking me a minute to get used to this new way of handling this. I told my reporter to scrap this story. I'm am very certain that she doesn't believe me, and I told her that what I think may not be true. Up until the other day when I sent that email about the 2 week break, I have been in reactive mode. I have been in this incredible pain and also have been afraid, and react by talking shit on social media, reaching out to the LA times, telling my friends about this, etc. This is not productive. The goal going forward will be to contain this and make people forget, as I reach out to you for help. What I need is to make sure that my rent is paid in august. Please see to that. If I start getting a threat of eviction I will go into reactive mode to the extreme. I will not be able to help it. I also need atrium health to be kind to me. I asked them for help with a small amount. I understand if they can't do that. If they can, I won't say a word to anyone. If they can't settle for this small amount right now, I need to them be kind to me otherwise. It is very hurtful when people accuse me of being delusional concerning this matters. I need them to just give me business as usual good quality care. Same prescriptions, etc. If I can get my rent paid by the 5th + have atrium be nice to me, that will be perfect for the short term. Then in the following weeks, we can hopefully be productive together. This situation can end for us all.P.S. I have been deleting all social media posts that reference this matter. I've done this on both of my accounts. There were not many at all. I'm not popular either, so most people haven't seen them. I no longer think that Wells Fargo "sucks", and will be leaving that forum soon. I've got to double check that all of my stuff has been deleted before I leave that group (once I'm no longer a member I can't delete my content). -- Warmest Regards, Clint Williams (980)-[REDACTED]

I will probably make those tomorrow. One main conclusion of these audios is that everything we communicate and this whole matter will be between me and you, and no one else. I am ceasing telling others about it. I am ceasing contacting the media. In my audios, I will explain that I will likely also cease contacting lawyers. As of now, I have one law firm that is going to get back with me. After them, I will put at least a 2 week to 3 week hold on talking to other lawyers. If I get the idea that you are working with me, that 2 to 3 week hold will be extended indefinitely. In my new audios, I will give a comprehensive list of who I have told about this situation. I will give details about what I have told to each party. It is not a big list. Effective immediately, the talk about this will cease. I hope to get a feeling that you are helping me. If and when I get that feeling, the cessation of speaking about this will also be extended indefinitely. FYI, I've only told about 6 to maybe 12 of my personal contacts about this, and most of them don't believe me and/or wouldn't be able to recall what I said about it. For full disclosure, I did end up contacting the media again. I reacted out of my pain and this fear about my life. It was a mistake. I am nixing this completely, effective today. It's taking me a minute to get used to this new way of handling this. I told my reporter to scrap this story. I'm am very certain that she doesn't believe me, and I told her that what I think may not be true. Up until the other day when I sent that email about the 2 week break, I have been in

reactive mode. I have been in this incredible pain and also have been afraid, and react by talking shit on social media, reaching out to the LA times, telling my friends about this, etc. This is not productive. The goal going forward will be to contain this and make people forget, as I reach out to you for help. What I need is to make sure that my rent is paid in august. Please see to that. If I start getting a threat of eviction I will go into reactive mode to the extreme. I will not be able to help it. I also need atrium health to be kind to me. I asked them for help with a small amount. I understand if they can't do that. If they can, I won't say a word to anyone. If they can't settle for this small amount right now, I need to them be kind to me otherwise. It is very hurtful when people accuse me of being delusional concerning this matters. I need them to just give me business as usual good quality care. If I can get my rent paid by the 1st + have atrium be nice to me, that will be perfect for the short term. Then in the following weeks, we can hopefully be productive together. This situation can end for us all. P.S. I have been deleting all social media posts that reference this matter. I've done this on both of my accounts. There were not many at all. I'm not popular either, so most people haven't seen them. I no longer think that Wells Fargo "sucks", and will be leaving that forum soon. I've got to double check that all of my stuff has been deleted before I leave that group (once I'm no longer a member I can't delete my content). -- Warmest Regards, Clint Williams (980)-[REDACTED]

Here is what I sent to the social security admin. It has a lot of details about my symptoms. They send you a form to fill out, but I cannot fill out forms. It kills me. What I do instead is type the questions the form asks me and then type the response. This document is quite accurate, but it is hard to be 100% accurate without taking detailed notes about my symptoms. I am keeping track of my symptoms now. I do it on a messenger IM with myself. I will send that some time. I have 3 days accumulated now. I desperately need help. I am severely disabled from what has occurred. -- Warmest Regards, Clint Williams (980)-[REDACTED]

Thank you so much for your help. I ask that you please see to it that my rent for august is paid and that it is paid before they file for eviction. By the 1st would be perfect. They want it by the 5th and then they file for eviction around the 10th or 11th. This is terrifying and I cannot deal with that stress. I will have some more updates soon. When I email you with my concerns, things seem to magically work out for me. Today has been a good day but I'm also terrified at times. I learned today that social security admin is estimating 5 months for a decision. This puts me at November. I don't know if mom can hang on that long. -- Warmest Regards, Clint Williams (980)-[REDACTED]

If Wells Fargo could help me by giving me accommodations while I try to work, that would be great.. I am looking at this, and I would have extreme difficulty making this drive. The drive + parking, etc. would tax my mind extremely. Maybe I could ride a bus.If at all possible to do this remotely, please help me do that. That would be ideal. I could get the work done on my own time. I am not sure that this will work, but I am extremely desperate. It is hard for me to tell if the people on the other side of this care about me. I want to think that you do and that's what I believe as I am typing this. I panicked a lot yesterday, but it was a good day. I've had 3 good days out of 4. Maybe you care to know that I've had a good day. The reason that I keep telling you that I am genuine when I'm recording audios is that I feel like I have to defend my character. I'm a very good person. But this email is about you and thank you for all you invest in me and my neediness. I am horrified by what may become of my life. If you can make them help me, it would mean so much. But again, thank you. You have saw some unbecoming behavior and done plenty else. You do this on top of all you have going on. Feel free to talk to me. I've kept my word about not mentioning this. I am going to put a book I wrote for sale online. It is a great book and my goal is to sell 3,000 copies. I am going to try to make it go viral. In my sales copy, I will talk about how I am disabled. My book sale will be 50% selling a book and 50% electronic begging. It's a "you donate to my cause and I'll give you this great book" type of offer. In re me being disabled, I

am going to describe it as a "terrible set of events" that happened to me. I will possibly mention that I am trying to work it out with the people involved. I will not mention any specifics. I want to be a friend to all of the people on the other side of this, and I want the people on the other side of this to help me and make it right. This past week has been very good. I have had much lower symptoms for 4 out of the last 6 days. My book project has me hopeful that I can have some kind of life. If I can make stuff to sell people in my usable hours, my life might not crumble. If my condition keeps improving, as it strangely has for this week, that is another sign for hope. I will almost certainly be able to keep my promise to not mention the specifics of what WFB et al have done to me, to any new people, before 8/15/2021. I don't know what you're doing, but I hope you are trying to help me. I want this to be a win/win/win/win across the board. I want the US DOJ to win, I want Wells Fargo to win, I want me to win, I want America to win. I want us to all win. If you could somehow give me a sign or tell me what I need to do, that would be great. My intent is to try to think of the interests of the people on the other side of this. It makes it much easier if I am given a hint about what's up. If I'm left in the dark, my mind can go to a place where I think I need to fight. I am still prone to being a firecracker. I am again sorry for all of the death talk in those other audios. This is disturbing and imposing. It was also unfortunately my honest thoughts and feelings. The past week has not felt like I'm in the valley of the shadow of death, not so intensely. Although I still frequently feel pain and despair, and I have symptoms throughout the day, my improved condition gives me hope, and I really want my hopes to pan out. -- Warmest Regards, Clint Williams (980)-[REDACTED]

I am still in very bad condition and am unable to work. Symptoms are back today. I have done everything that I can for you. I sent a complaint that references crimes for which there is an aggregate scores of years of prison time to go around. I had my poor aunt pay for my brain scan. I have deleted all of my posts about Wells Fargo. I have done everything that I possibly can to make this a win/win. You have been given my wishes for this to be a good thing. You have been given examples for how this can be a good thing. I am a devastated, pulverized, and destroyed human being. I need justice. Thus far we don't have a win/win. We have a situation where I continue to lose and to suffer. I need you to please help me. It looked like you were going to help me when AU girl came on the scene. That was a very happy time. Now I don't know what you are doing. I have had ample patience with you, as I see it. After being pulverized with crime for 1.5 years, I send you a complaint. I have an air tight case, and I actually had an air tight case many months before that. For now 8 or 9 months, there is no relief in sight. All we have is my poor mother cashing out her retirement, my poor aunt wasting her money, and me being disabled and suffering-- Warmest Regards, Clint Williams (980)-[REDACTED]

I need you to help me. I have suffered too long. I have been good to you in helping you. I told you about the Facebook scam, to save you from any hoo rah that comes from that. I try to see your side of this, meaning the side of the people on the other end. I know that I have had some unbecoming behavior, but I am severely ill and suffer extremely. Some things I cannot help. I have been treated cruelly and I have been victimized repeatedly. I ask you to make it right for me. Make something good happen for me, so that I get some justice. I am a ruined human being. My brain is broken and I will never function as I once did. I try to hard to see these people in a better light, and at times, I do. I want to see them as good people who have made some terrible mistakes. I do my best to see good in them. I am terrified about my life. There is so much misery ahead of me that I can't take it. They could make this right. I will do whatever is needed. You just tell me. If the public has to know, we can make this a good thing. I have suffered terribly as a result of my decision to work at this bank. It was such a good job for so long. It fueled my new life. But in the end, it was the worst decision I ever made. That's the ending of the story we have at the moment. My life is destroyed and I am permanently handicapped. I don't know what the deal was with AU girl. I cared so much for her. I thought I was getting help. I would rather die than live the life I have before me. I need you to help me very badly. If they make it right, they will be the good guy again. My new life will go on and it will go on in a way that I can be happy about. If they had a plan with AU girl, that I would have a life with her, whatever they had planned would be a good ending for me. I don't want a life where I am dependent on her for money and my livelihood. I would rather have an option where i can live independently if she decides she doesn't like me anymore or if I need to leave her for some reason. With that said, anything is better than what I have before me. I will take what they can give. I am very concerned about how my character is perceived. I have been nothing but honest and genuine with everyone involved. I have tried very hard to do right by you. I have tried very hard to do right for so many years. I am a very good person. I ask that you please see the good in me. I will attach a conversation with the owner of a children's ministry in Pakistan. You will see that I donated to this woman's ministry for needy children. 2 churches I contacted about her turned her down. 1 church had the excuse that they "are just a small church and cannot afford much." I can't remember the other churches explanation. It is maybe halfway in the chat that you will see my screenshot of my donation. 1 person facing serious financial problems gave more to her needy children's ministry than 2 churches and this woman's 120 Facebook friends combined. She befriended westerners, primarily from the US and Canada, and asked them for money. If you look at these peoples Facebook walls, they purport to be religious fanatics with all the memes they share. When the rubber meets the road they are tightwads that report her for asking for money for her hungry children, for whom she risks her reputation, it not her safety or her life, to teach about Jesus. She got kicked off FB for good the last time she got reported. I never got to send her any more money. She had sent me videos of her 40 children eating the chicken and noodles dish my \$63 bought. also sent me videos of them singing. It made my day. (980)-[REDACTED]

One thing about that chat, when I say Muslims I am often thinking of extremists. I do not judge anyone simply based on their religion and I do not think that Islam is a violent religion in the form it is practiced by most. Warmest Regards, Clint Williams (980)-[REDACTED]

Subject: My situation

From: Leonard Clinton Williams III [REDACTED]@gmail.com>

To: "Division, Criminal (CRM)" <Criminal.Division@usdoj.gov>

AU girl appears to possibly have been a cruel trick, on top of the cruelty that has already been dealt to me. There was always something that didn't add up about her. I cared so much for her, and still do, but she doesn't care for me if that is what this is. Overall, this week I have had less symptoms than is typical. I am still not fit to work, but I may try anyways. I am very frightened. Destruction has been poured all over my life. I need someone to help me. I ask that you please make this work out for me, So that I get something. Allie Row is enjoying her debt free home. Everyone else is enjoying the spoils of their crimes, while also enjoying the freedom they are allowed to keep, despite all of these crimes. 100+ years in prison time to go around. Who did this collection of people victimize, to rack up such a massive tally? Did they con or defraud 20 people? Did they violate the rights of dozens of people? No, for all 100+ of those years, the kind hearted man who is typing this was the victim. Possibly the biggest victimization in the history of American business, a massive dog pile on one man. This is what I get for asking this bank to tell the truth. I try to see them in a better light. At times, I do. If they have genuinely tried to help me, that means a lot, but the evidence doesn't fully add up to that. If they help me it would mean so much. I have been especially kind to Wells Fargo for most of this, considering what they did to me. That I still think of them and worry about their bank says something about me. -- Warmest Regards, Clint Williams (980)-[REDACTED]

These won't be delivered in sequential order. I am attaching them in a way as to minimize the number of emails that I have to send. There are 19 audios total. For those audios, parts 1 through 15 have info for you. Parts 16 through 19 have extra info that you may or may not care about. I included it in case you do. I am using these audios to tell my story. These may end up in other people's hands in the future. I explain why that is. I know this is a lot, but I would ask that people listen to this. There is a clockwork nature to debacles like the one that we are in, and this clockwork nature ends in disaster. We need to throw a wrench in the machinery of this clock. Every outcome that each party is trying to prevent is on the path to coming to fruition. If this clock keeps turning in its predictable way, that will be what happens. Each party's respective worst nightmare needs to be prevented from happening. I also explain this thing where I'm screaming at you about people in the mountains being consulted. Here is my webpage to sell my book, if you care to see

it. <https://lcwlearningportal.com/educational-book> It is kind of terrible. The videos are terrible. It's kind of terrible across the board, but it is the best that I can do. I briefly mention this situation in my moving to Charlotte video. Note that I talk of "being loaded on Adderall".. I am being lighthearted here. I took two extras. I get 6 extras a month. I have been suffering extremely and this helps. I'm not loaded at all.-- Warmest Regards, Clint Williams (980)-[REDACTED]

In normal times, it's best to tell the raw, uncensored truth. I think this way and I would imagine that you think this way too. In this situation, however, it seems like we want to go about this a different way. All I'm trying to do is end my suffering and save my life. The ends justify the means. If you need me to say that my belief about what has occurred is a "delusion" resulting from my mental health condition, I will do it. All that care about is my new life in Charlotte and I need this hellish stress that is on me to relent. My word is good. Whoever helps me is whose side I'm on. If it is Wells Fargo, then I'm on Wells Fargo's side. Same for you. I understand that you have limitations and constraints, although I don't know what all of them are. I ask you to do what is right by me. I will do whatever you need me to. -- Warmest Regards, Clint Williams (980)-[REDACTED]

I am just telling you what will happen. I don't mean to be rude or imposing. It is this stress. What will help me is my rent being paid and having money for food and things. The ER is worthless and will tell me I'm fine. I'm also not going because that will be another Bill that I cannot pay. I need my life to not collapse. That is what will make it better. Until then the stress is going to kill me. Going to the er will cost more money and make the stress worse. I know exactly what I need and I need people to do what I ask. Anything else is going to murder me further. I am not guaranteed to make it through even one more night. There is no point in calling atrium or any other hospital. I am dying as a result of this what has happened and I need people to listen to me. Kicking the can to some hospital does nothing but push me further into the grave. I really need atrium to help me. I need to get some meds to be filled. You will see that I'm slowly coming around to doing this your way. I want to help you, as I can see that this situation is creating stress for you, and most likely very intense stress. It is taking me time to adjust, and I still have terrible feelings about this. I got angry yesterday and that's why this all came out. I will do better next time. I still believe it is possible that you help me. I can see that your needs need to be taken care of first, if that is ever going to happen. If you do not help me, I will do my best to adjust to the life that will result. It will be a life that will be extremely hard to live, but I will do my best. I believe that the best way for me to look out for me is to look out for you. That's what I'm seeing and I'm genuinely sorry for all of the stress that this situation created. Atrium redirected me to a crisis line and I hung up. I think they may have done this deliberately. I hung up because I thought it was an error. Due to my condition, it will be too taxing to call them again today. I will likely not have the willpower. I will call them Monday and I need them very badly to refill my meds. My mother will be coming up here to drive me to get meds. I don't have a working car anymore, so I need to have them ready for me on the day she comes. We can wait while they are filled, but she will not be able to drive back. I am eligible for a refill on the 18th or 19th. I'm re this death talk, I was not speaking of self harm. I have felt that the stress of my situation is going to cause me to have a heart attack many times. Going to the ER accomplishes nothing. They tell me that I am fine and then I have a hospital bill that I cannot pay and that adds more stress. I currently have no plans at all for self harm and do not think that will ever happen. I had this heart attack feeling several times this past week. It is this stress I am under, and this is also why I am losing weight. I've spoken of self harm before, or at least thoughts of it, but that's not going to happen. I need very badly for my life in Charlotte to go on. I ask that you please do any and everything you can to help that. It would mean the world to me and I am going to look after you. -- Warmest Regards, Clint Williams (980)-[REDACTED]

I am under terrible stress and it's killing me. It may prompt me to take action to get attention on this situation. I don't want that to happen, but I am worried that my self control will give in. What would help is if you could arrange for my mother to make sure that my rent for sept is paid. If she will give me some assurance, that would help tremendously. I am doing everything I can to make this work out good for you and to let you take it easy and be stress free. I have no desire to fight and none of my actions for the past 8 or 9 months have had anything to do about having a desire to fight. I am going to type some documents to explain this and some other things. I will no longer send audios. I can be much more organized in my communications in writing. Thank you for your efforts and for accommodating my neediness. I very badly need your help. I cannot forget about this situation because of my terrible suffering and the nightmare that I face. If you help me as I ask, I will be much less needy. I will give you a three week to one month break from emails. If I get help on a recurring basis, I can tone them down that much more. You won't get many at all then. I am getting tired of this matter too. It has consumed my life. If my disability gets approved, I will likely take one full month away from this completely. If disability finds things correctly, I will get a 12 to 15 months back pay check. Should be 15 months. That will take my stress away. You will obviously get a break when I get that break. I will probably take 2 months, or even 3, actually, away from this completely if I get disability. I need a trier to help me. I will run out of adderall by the 18th or 19th, maybe sooner. I need this medication and they know it. I am disabled and my life is melting. It is further melting over crimes that they participated in. -- Warmest Regards, Clint Williams (980)-[REDACTED]

I am adjusting to what is happening. I am suffering like you cannot believe. What is happening is I am not going to get anything out of this. I have been horrifically victimized and left disabled for life, and no one wants to help me. If I get disability approved, that will buy me time and I can keep my life in Charlotte. If I do not get approved I will have to file an appeal. I ask that you please do whatever you can to let me keep my life in Charlotte in the short term. The stress of this is killing me. Once I

get disability, I can work on having whatever kind of life I might be able to have. I will probably have to move to section 8 housing, once my apt lease is up. I need a trium to help me by getting me medicine. My mother will be here to take me to get meds on the 19th. If I can get scripts written I can get them filled on that day. I will leave you alone once my life in Charlotte is secure and I have disability, I will leave you alone. What has been done to me is terrible, and I cannot believe the utter cruelty with which I have been treated. What is happening is I am being crushed. It is so cruel that I cannot believe it. I thought I was getting help with AU girl and I wasn't. I never meant you any harm and I wanted things to work out for Wells Fargo too. Maybe you never meant me any harm either, but I have been demolished by this fight and by the actions of the people on the other side. Please give me a sign that my life in Charlotte will not tank. I am asking for extremely little. I will be getting a disability decision soon. In the next 10 days most likely. If that comes back approved, I won't even need your help. My communications are all over the place, and what is going on is I am coming to terms with the fact that I'm not getting help like I wanted. Anything I do to advance my cause forward gets me crushed. I will just live with this horrible suffering. It was a mistake to work for Wells Fargo. It appears to be a mistake to have contacted The United States Department of Justice. There is not much justice to be found in this fight. I believed that you would help me. It was what I counted on the entire time I was fighting. On the other hand, this situation has likely caused you terrible stress. I am sorry for that. I meant no harm. I have meant no harm this entire time. Whatever you have done to help me, such as AU girl, if she's not a scam, I appreciate it. I wish so bad that I would get that back, if it was for real. It's time for me to close this chapter and move on. I am crying as I type this and I cannot believe how terrible you people are. I will likely still dream of the day that you magically change your mind and do something for me. I will probably do so for the rest of my life, as I suffer this hell that I live. My savior will never come, but I will dream of it anyways. At least help me like I am asking. At least help me keep my life in Charlotte until I get disability coming in. What is ahead for me is that my teeth will fall out. They are starting to go that way and I will not be able to afford the expensive procedures to get them fixed. I will have very little in life and I will die having never known what it's like to be in love. If they can also at least pay me the \$1,000 that this brain scan cost me, that would help me. Thank you again for anything that you have done or can do to help me. I do hope you see what a good person that I am. I have tried so hard to be a good person. The day is coming when I'm no longer in your inbox. Please please just keep this nightmare of my life tanking from happening. I feel very bad for the things I suspected of my poor mother. She is the most pitiful person I've ever seen in my life. Please have mercy on me and on my pitiful family. I see hostility where there is none and I do this even with my poor mother. If I could get some of my friends back, like Jenny or Shana, or Preston, or any of the others, that would be good too. I need people to talk to. If you could also tell my house cleaners that I'm not such a bad person and to respond to my texts, that would be great. Tell this to the people at Bank of America too. These people appear to have been prejudiced against me, and if you know anything about it, please help me there. I will need my cleaners once I get my backpay. There are benefits to ending this fight, and I'd at least like those. It is taking me time to get settled in to this new reality, but I think you can see that I'm getting there. I have made boo boos in my dealings with you and

it is because I am suffering and also my deficit about how to be with people. I am sorry for all of that. Please just give a sign that my life in Charlotte will not tank. This is a very sad ending for me. I am not going to pursue this anymore, not in any way. I have no choice. I so badly wanted and needed help. I have been in pain for hours, with shell shock, but I have not emailed you, as I usually would have. I need my medicine from atrium. I am going to call them Monday. Please see that I get it. Now my main goal is to get social security ASAP. That's my only hope. I am so incredibly sad. If there is anything the people on the other end can do, please do it. I think AU girl may have misunderstood me. I don't know if you play my audios with her. What I was saying about her is that I want to ease her suffering. The way she works is she will not tell you what she needs. She finds it hard to tell you what she needs. So the way to ease her suffering is to be very good at picking up on what she needs without her telling you. Then you do what she needs you to do. To her it may seem like magic that you know what she needs, and it will be something she really appreciates. I care about AU girl so much. I am crying as I type this. I value and appreciate her as a person. I'm having memories of making these last set of audios, and I had said some strange things. I don't know what I was thinking, but whatever it was it's not what it sounds like. I could never hurt anyone. I have no choice but to give this up. The people on the other end decide what happens, and they are far more powerful than me or anyone else in the world for that matter. There is intensity behind your actions. I had tried to get things to go faster, by reaching out to the media and things like this. I am just going to get crushed with anything that I do to try to help myself. It is utter and complete cruelty what has been done to me. I wish I would have known what the right thing to do to get help was, if there was such a thing. I am handicapped in dealing with people in a way that I cannot help. I think I made people mad over this brain scan. Whatever the case, I am done, and I am terribly, horribly sad about this outcome. I will never get over this because I will suffer for the rest of my life. You can move on though. I want to state, one last time, all that I have done: -I killed myself to be the best employee I could be for Wells Fargo. -I took on the hardest work in my Dept and worked miracles -I trained and mentored something like 20 or more analysts over the years that I worked, teaching them about credit and about my offices work -I managed up to 12 to 16 analysts who did my work, so that the Dept didn't have to pay me or anyone else overtime -I continued to do all of this, as my department turns against me and treats me with hurtful and cruel stigmatization, and as the management that is in place makes it harder and harder to do the great work that I was known for. Then this happened and I tried to settle it the easy way so many times. I end up reporting it all to you. In this process: -I have told you every single action I have taken or will take, for your benefit. I tried to look out for your interests -I got this brain scan, which cost my aunt \$250 and will cost me \$750. It took an extreme effort and sacrifice to get this. I went through enormous stress in this process. -I told you about Facebook possibly having something to do with you over what happens there. I did this because I was concerned about you. I wanted you to be able to avoid anything that happens as a result. I saw us as a team and was trying to help get a good outcome for everyone. -I have been a big man and acknowledged my role in all that occurred. I have apologized for all of my inappropriate behavior, and for my role in what occurred. -I have offered to help Wells

Fargo-I have thought about ways that we could make this a good thing, if it ever came to light-I have made a promise that was extremely hard to keep, and put forth enormous effort to keep it. In this process with you, I have acted in good faith to the best of my ability, as I have suffered extremely. My incessant communication was out of my need for my suffering to end. This was hard to deal with, I am sure, and I am sorry. I could not help it. I have done my absolute best. And so this is it, the sad and painful ending. I cannot tell you how much I hurt typing this. Please do what you can to make this easier on me. You win, just like I wanted you to win the whole time. I wanted me to win too.-- Warmest Regards, Clint Williams (980)-[REDACTED]

I am being crushed. I need my medicine so that I can try to save my life in Charlotte. If I lose my apartment, I will just accept it. I will not take any rash actions that might cause more cruel and ruthless abuse. I worked my whole life, killed myself, so that this could happen to me. I overcame everything, including my dysfunctional family and also including the blood that runs through my veins. Now I am handicapped for life. I will live in terrible pain. I will not be able to pay the rest of the \$1,000 that this brain scan cost me. I wanted a brain scan that would be helpful for disability, but I got one for Wells Fargo instead. This is what I get for working so hard for this bank. They make a bad hiring decision with a senior leader, and I pay the price with the life I worked so hard to build. I fought back because I was angry and also because I was handicapped for life. Getting justice out of this was the only chance I would have to have anything. I am breaking down in tears and I will cry over and over again for the rest of my life. I am left in the dark about what to do to get help, as I suffer unbearably. I don't even get a return on my emails. It was a mistake to work for this bank and this is a mistake that I will never recover from. I will not get a second chance. I will not be able to start all over another time. This mistake left me severely handicapped, so severe that I cannot get better. I never asked for anything more out of life than what I was willing to work for. I have not asked for much from you and this bank, in this process. I was willing to accept very little. Now I cannot work and I will get nothing. God I am sad. They could have told me the truth, like I asked, and paid me, instead of funding this crime spree that left me disabled for life. I never even asked for payment. But why I am even talking to you? If there is anything you can do to help me get disability please do. I am speaking to the most powerful people on earth. Please use your power to help me. Please do something for me. -- Warmest Regards, Clint Williams (980)-[REDACTED]

This latest round of abuse has triggered terrible symptoms. The stress of my life tanking has worn me down extremely. I am extremely weak and there is something wrong with my heart. This is your problem. You did this to me. You disabled me for life, such that I cannot work to make an income. Without an income, I cannot stop my life from tanking. So my relentless stress and hell and suffering goes on day after day after day, because you will not do anything to help me. It wears me down over time, and it will wear me down forever. You have the full power to stop this stress and

suffering, but you will not. I need a trier to not fight with me. I was making some audios to explain this appointment from the other day, but then this profound weakness set in. I cannot take any more victimization. I am likely to die if they start more of this shit. I am beaten and destroyed and extremely weak.-- Warmest Regards, Clint Williams (980)-[REDACTED]

Sorry to be so blunt. I don't mean to be rude. It is just that I am suffering extremely and am on the verge of collapsing. I've been trying to get you to help me for 10 months. I wanted you to end this hellish stress and suffering. I will send you the audios that explain my behavior in that appointment when I am well. I still have one more to take. It is 3 audios or a few more long. If it is a concern to you, my audios will explain. I really need a trier to help me. I was not out to get them in that appointment. I just got pissed off all of the sudden and brought up this topic. I was trying to explain that what is wrong with me is that I am handicapped and cannot make my own way in life. This is the point that I have been trying to get across. This "pep talk" approach does nothing to address this reality. There is no pep talk that will cause me to no longer be handicapped and cause me to have the ability to make my own income and manage my own life. Going to the ER does nothing. When I leave the ER, I am still handicapped and unable to fend for myself in life. I am still not able to make a living income. I am still powerless to stop my life from tanking. The difference is I have another hospital bill that I cannot afford to pay, and that will create more taxing tasks in my daily life. What I need and have needed is to get money to compensate me so that I can fund my life. I am powerless to make my own money, because I am handicapped. I am getting long winded, but the point is that I was trying to explain this to a trier. They talk to everyone else on the other side of this, and so maybe they can explain it to you better than I can. The problem was that as I do that, I start to feel hostile about what has occurred. That's why I brought that up and it mushroomed from there. I was not out to get them. I have taken one action after another to try to prod people into helping me. I've been doing this for 10 months. Over and over. I need this suffering and stress of my life tanking and of my helplessness that results from my being handicapped, I need this suffering to go away. I can't take it. As I suffer, I have to sit and wonder why it is that I am not getting help. No one will tell me what I need to do to get help. Every concern that I can think of, I address it. I tell you of the dire nature of my circumstances. I try to get the media involved to see if that can make things go faster. I tell you that you can blame it on me that there is no criminal trial. I explain that my family is lying about my abuse and has been. I emphasize that I am honest. I try one approach after another with you. As I am doing this, I tell you what I'm up to, so that you are in the loop. It is your situation and it is my situation, and I try to work together as a team. As I take this approach, my suffering goes on and I am baffled as to what I need to do and what is holding you up and why you won't help me. I on and off get mad, over my suffering, and I end up screaming at you. If you are getting weary of hearing about my suffering, I am also getting weary of telling you about it. I have wanted the day to come that I do not have to tell you about it, because I am being helped. That day never comes and so I am consumed with this situation and figuring out how I am supposed to get help. If you would have helped me end this stress of my life tanking because I am handicapped, you would not be receiving these communications. I've wanted to speak to you directly for a long time. You could just tell me what I need to do. I am good at understanding the instructions of others. I am also sharp and talented in thinking of ways to address or get around any road blocks. I

could help you find a way to help me. And you can believe me, that I will do what you say. Warmest Regards, Clint Williams (980)-[REDACTED]

I am going to get approved for disability. My medical review has been completed and my status is that a local office is reviewing me for non medical criteria. What this means is that the medical people have correctly determined that I am disabled. Non medical is a guaranteed pass. It appears that, possibly, someone on your end has done me a favor. SS process usually takes much longer and they deny people left and right. If that is the case, thank you very much. The more I think about it, the more the case seems to be that my audience on the other end of this is kind of big, bigger than I originally expected it to be, and that my audience includes extremely powerful people. That's why I believe it is possible that this is what has occurred. The lady at DDS says that it will take about 2 weeks for the local office to get to my decision. I hopefully will start getting payments not long after that. If I do, my life in Charlotte will be saved for at least the short term. This is an enormous comfort for me. It means a lot if you have played any role. I am extremely weakened. I hope to get my strength back, meaning that this fatigue that I have recently had will go away. This horrible stress that I am under keeps doing something to my heart, but whatever it is, it seems to always be temporary. At the moment though, I am extremely weak. I need a trium to get me some medication refills. I need my olanzapine 5 mg tablets, 60 quantity, and I need adderall 20 mg 60 quantity. I need them to be eligible to be filled on 8/18/2021. I can call and have them filled that day, then my mother will be here on the 19th. She can take me to pick them up. My car is broken, and this will be the only time that I have a ride to the pharmacy this month. That's why I need my meds now. If you could also pull the strings behind the scenes in any way to make sure my life in Charlotte lasts until I get payments coming in, that would be extremely helpful. My mother is going to kill me if she doesn't help me here at the final stretch. This is the kind of thing that she does,

and it is murder trying to reason with her. If I have to go back to the mountains at this point, it will absolutely destroy me. I will send you the audios about this appointment with Atrium soon. I may make them over. I am crushed and heartbroken that you appear to not be going to help me with them making it right. My life will be very sad and painful. All the promise my life once had has been taken away, and I will not get any of it back. I killed myself working and working on myself for 21 years, so that I could be demolished for no reason at age 38. I asked this bank to tell the truth and have a conversation, completely consequence free, after it did me a terrible wrong. You have had mercy on this bank, and I wish that you would have mercy on me. I had AU girl, and that made me so happy. Then you took her away. I apparently did something to offend you. Whatever it was, I am a disabled and dying man, living in terrible pain and fighting for my life. I wish that I would get a pass on my behavior, and you let me keep AU girl and whatever life you were going to give me with that. But I'm not going to press that. I am crying as I type this. But thank you again if you had anything to do with social security. Also thank you for any other help you have given me. I will die having never known what it is like to be in love, but I won't have to die in the mountains. At least I have that.-- Warmest Regards, Clint Williams (980)-[REDACTED]

I am not fighting anyone. I need my meds. I am also going to make some audios where I ask you to please reconsider with AU girl and what was planned there. I am on your side. I am on your side for many reasons, one being that I need you to help me. I will do whatever you need me to do. You care about me. I believe that you do. I believe that you understand how horrible what has happened to me is. We can work this out, I promise. There are a million ways to get around any and every obstacle that may exist. I understand your side of this, all of you. This situation is over for you, or rather it will be soon. I need it to be over for me too. I need for me to win. You have done something wonderful if you helped me with social security. That makes a night and day difference in my life. It has provided extreme short term relief. I feel much less stressed now. What I need now is for you to help me with long term relief. I need to be able to keep my life going after my backpay is all spent. My backpay is expected to be a good sized amount. It will be used to supplement my monthly payment, so that I can pay my bills. It will last me a good amount of time but it will not last forever. I care very much for AU girl. I want to help her and to build a life with her. If I could have a life with her, and be able to survive long term, I would bless the day that I walked through the doors of Wells Fargo. -- Warmest Regards, Clint Williams (980)-[REDACTED]

I just remembered that I told you that if I got approved for social security, I would take a month off from this situation. I do this for your benefit and mine. I will do this so as long as atriun fills my meds. This latest scam with my meds is yet another victimization of me. You are trying to cripple and handicap me by loading me up on one medicine and taking the other one away. You get this idea from my audios. This situation is killing you and its killing me far worse. I came to you for help. I came to you for justice. I would like for you to refocus for the month off, after my meds are filled. I would like for you to think of ways that we can handle this situation that involve helping me with what I need. I promise that this can be handled. I need to be involved. The whole thing has gotten way out of hand. It is heading towards a disaster. If you contact me and put me in the process and in the loop, I can work with you to make this ok. Right now, what we have is me being a terribly suffering disabled man. This terribly suffering disabled man is getting pounded with more than he can take. This is counterproductive because this disabled man has limits for how much he can suffer, and the behavior that results can not be optimal for our situation. I am not angry with you over this last thing, as long as it is made right. Have them give me, a disabled man, the medication that he needs to function. I kept 90% of my last promise and I will do everything that I can to keep this one. You can rest for a month. I just need people to be kind and helpful to me. I have no guide for what I need to do to get help. I never know what is going to happen to me, and I suffer continually. If I could be part of the process this would be easier on everyone. -- Warmest Regards, Clint Williams (980)-[REDACTED]

My life in Charlotte is looking to be saved by social security, but I've got some things to do to secure my rent for next month. After that, i should be getting payments. This situation is almost over for you if you will just help me. I need to be able to function so that I can save my life here. I am on the home stretch. --

My life in Charlotte is what matters to me more than anything. I understand that you have constraints. If it is the case that my situation is relevant to the economy as a whole, then obviously this ties your hands. I do not see this situation as being as such. I will defer to your opinion. You are in charge have extremely strong feelings tied to my life in Charlotte. It is almost completely saved for the short term. I just have to do a few more things. I cannot take any more. Please be kind to me. I am a dying man. -- Warmest Regards, Clint Williams (980)-[REDACTED]

They do not appear to be writing me any more adderall until my appointment on
September 1st. This is my punishment, I suppose, for bringing this up with atrium. I
am very sorry but I cannot control myself, because of my suffering. You do not realize
how profoundly I suffer. I am injured to an extreme degree. It may be the case that I am
a 1 in 100,000 category for ptsd severity. I am contemplating going to the inpatient unit
on Billingsly road. I am not fit to be in the emergency room upstairs. I need to go to
observation. I need you very badly to help me. If I am made right here, it will work out
for everyone. I can keep secrets and I will do whatever you need me to. There is no
reason for anyone to believe what I have claimed anyways. If I am made right and do
not have to face the end of my life every minute of every day, I will be much better able
to control myself. I am willing to be institutionalized for life, if I can get any amount of
comfort at all. If I could get sent to some facility, and have all my expenses for food,
etc. paid for, and also get a disability check, that would be enough. I would just need
to be able to have books, my iPad, my iPhone, and be able to use my computer. I
would also need to be able to sleep and wake when I want, and have my diet and my
eating times be up to me. I would like it to be a replica of my apt in Charlotte as much
as possible. I am not fit to go out to places. This may sound insane and I may sound
like I'm asking for something special for me. On the former, this is an alternative to the
end of my life (as I or anyone else knows it). On the latter, I have endured an
extremely bad set of events and these events have injured me very extremely. There
are roadblocks to me getting justice, and this isn't fair to me. I have heard of people
who are a liability for Washington getting a room to stay in at the White House, for
instance. I need an outcome that is good for me too.-- Warmest Regards, Clint

Subject: Your abuse is killing me

From: Leonard Clinton Williams III [REDACTED]@gmail.com>

To: "Division, Criminal (CRM)" <Criminal.Division@usdoj.gov>

This new medication regimen is horrific. I have something wrong with my heart, as a result of the horrific, relentless and terrible stress of this battle. My heart is weakened. When you take away my adderall and load me up on sedating medications, this makes it worse. I have felt like I'm going to die several times today. It is more, though, just the fact that I am being abused and massacred. I cannot take any more abuse. You have nearly killed me with this last round of abuse. I am not sure if I will survive it. I can tell you that one more round of abuse will kill me. I will not survive. I am extremely weakened. I have been getting massacred with abuse for almost 2.5 years. This is by people who outweigh me extremely and who outnumber me dozens to one. I am a human being. I have a finite capacity for how much massacre and abuse I can take.

You have pushed the limit as far as it will go. Any further abuse by you and/or Wells Fargo will kill me. I can't take any more. I will die. Your actions will have been those of a deliberate murderer. Make this right for me so that this horrific stress can be lifted and that I can live. Please, I am begging you, in humiliation, for my life. Above all, please stop abusing me. I need some kind of short term relief if I am to for sure make it any further. This last round has put my life in jeopardy. -- Warmest Regards, Clint Williams (980)-[REDACTED]

I ask for relief and I often do not seem to get it, but I ask anyways. I'm telling you that I need it and that my life is at stake. I need rent for sept. That would help. It is \$1,065. I also for sure need to get more adderall. Sept rent I may be able to come up with from government programs, but if I had it in the bag it would help my situation. Same thing for a handful of money for things like groceries. Your tactic is to take away the one medication that helps me the most, and then load me up on another one that has long been documented to cause me extreme cognitive impairment. This solves your problem in the short term, but it ignores the fact that I am a human being and that I can only take so much. Please help me. I can't give you a week off because I might not be here next week. You need to understand how dire my condition is. Warmest Regards, Clint Williams (980)-[REDACTED]

I'm trying to get out of bed and maybe I can. I feel like I'm about to collapse. I am the victim of a terrible series of crimes. These relate to a lifetime of cruel stigmatization over my mental health history. I came to you for justice. You are the Justice Department. Thus far, I have gotten:-you have saw my illegally obtained healthcare records. You likely exchanged remarks with others about them. -you have made me believe that I will get help if I get a brain scan. I have to pay for the brain scan and it has gotten me nothing.-You sponsor and perhaps participate in my cruel abuse, as I get weaker and weaker. This is not justice. This is me being victimized with impunity. This is not who you want to be, I give you that credit. It is also not who you are, I am doing my best to believe. I will forgive you for all of these if you will just please help me. I also need the abuse of me to cease immediately. There are ways to work this out. The economy doesn't have to be affected, not at all.I cannot forget this because I am a severely damaged human being as a result of what has occurred. I am permanently disabled and not fit to live like a normal person. I need these people to make it right.I may start looking for help outside of you again. Not sure where I can turn. I've only been up since 1:30 and it's already bedtime. I am too weak to keep on. I'm not going to the ER because every time I do they try to refer me to a psychiatrist. This is a recipe for more criminal abuse and I live in fear of these hospitals over what has happened. The relentless stress of my life tanking, which has gone on for so long, is damaging my system extremely. My heart is very weak and I felt like I was going to die last night. You have had the ability to stop this stress in its tracks the entire time, but you do not. It goes on minute after minute day after day, while I plead with you in every way that I know how, to help me. I'm not going to sugar coat reality. If I die, my blood will be on your hands and this bank will be a murderer. I do not know the chances that I die, but something is very bad wrong with me. Your latest round of abuse has played a big role. For sure, I cannot take any more abuse. Please stop abusing me. Please be honest with me the way that I am with you. Whatever issue this situation creates, it is not my fault. I have been massacred with crime. I am a destroyed human being. I am ruined. I ask that you take the outcome where I get nothing, and put that outcome in the trash can. This cannot be. My suffering will be just as intense as it is now, for the rest of my life. It is necessary that I get something out of this. It is morally necessary and it is made necessary by my suffering and the handicap that I now have as a result of what has occurred. This is not a situation created by my conduct. It is a situation created by the conduct of others. Those others need to make it right. Direct your frustrations at those who are responsible for this conduct. If you are reading this and it is your conduct, please just make it right. I ask again that all abuse of me cease. I have been victimized and abused enough. It has been a nonstop massacre of me for almost 2.5 years. I need my medication. We need to have a better process for handling this than taking away a disabled man's medication. I need my medications. I have been taking them for decades. They help me. I have been extremely honest with you. This is part of a pattern over my life where I have been very honest in my dealings with people. If I had to do it again, I would not contact the United States Department of Justice for help. It breaks my heart to say that. You seemed like such a good friend at first, and I wanted

to be your friend. I still want you to be my friend and I still want to be your friend. It breaks my heart that I am being subject to this abuse. I come to you for justice and you do this instead? Please be kind to me and please make this right. I am being tortured with withdrawals as I type this. I cannot take any more abuse. I repeat, I cannot take any more abuse. Please cease all abuse of me. Please find a different way of handling this situation than abusing me. This is how this has been handled from the get go, by every last party involved. It is easy to do this. I am disabled and I have autism and I am not physically strong. Just because it is easy doesn't make it right. It is wrong for you to do this. It was wrong for Wells Fargo to do this. It was wrong for atrium health to do this. -- Warmest Regards, Clint Williams (980)-[REDACTED]

I am suffering so extremely. I just had to go pick up 3 packages at the Amazon locker at my complex. The stress of this has killed me and put me in a state of distress. I won't recover from this for at least 20 minutes to an hour. This is how my life works. The simplest of tasks overwhelm me. I cannot keep up with life and am helpless to stop it from falling apart. This is horrible. Please god please help me -- Warmest Regards, Clint Williams (980)-[REDACTED]

What happens is my mind gets paralyzed and I get in a state of distress and feeling helpless. This helplessness is horrific and it is compounded by my life tanking, and me not being able to do anything about it. I cannot tell you what torture this is, this helplessness + pain + life tanking, and I have lived this daily for over 2 years. Warmest Regards, Clint Williams (980)-[REDACTED]

Subject: Let's end this

From: Leonard Clinton Williams III [REDACTED]@gmail.com>

To: "Division, Criminal (CRM)" <Criminal.Division@usdoj.gov>

I was ready to end this and then I found out that my social security was denied. This is another massive blow to me. My records do not reflect my condition, and I will thus be cheated out of \$18k to \$20k in backpay, even if I am able to appeal. As I understand it, if I appeal, it will be the doctor at ss who determines if I am disabled, and if he or she finds me disabled, it means that I am disabled as of the date of that examination. So instead of \$20k + \$1,492 a month, I would get \$1,492 a month. I'm coming back around now, and it looks to be the case that you are not going to help me. If this is the case, this is the most ruthless and cruel thing I have ever seen. The past 2.5 years have been not much else than ruthless cruelty directed at me. I don't know why it is this way. It is heartbreaking. I am a man of my word, and if you will just have them fill my adderall, I will drop this, I promise. I need to be able to fight for my life in Charlotte. I've got to apply for rental assistance and I've got to appeal SS decision. I am a brutally damaged, destroyed, and handicapped man. I am all of these as a result of a terrible crime spree that hit me from every angle. I will live in terrible pain for however much longer that I live, if something doesn't change. If atrium can work with me on my medications, there is some hope there. I am able to get a lot more done when I take extra adderall, and if they would up my dose to at least 60mg (I really need 80), I think I could possibly make my own living. I've asked for this for years. This extra olanzapine seems to repress my hyperarousal symptoms to some degree. I think that + more adderall may be the solution. Someone needs to do something to help me, that is for sure. But please just have them fill my adderall. In the short term that will help me keep up my fight for my life in Charlotte. I can talk to them about increasing the dosage later. I will call them tomorrow about getting a script sent over to be filled. -- Warmest Regards, Clint Williams (980)-[REDACTED]

If they can up my dose on the 1st, I can likely get a job pretty fast. I am an expert on loan mods and there will be a flood of applications when CDC order is lifted. If they do not up my dosage, I will have this life of terrible suffering that I have spoken of so often. I will keep my promise to you even then, but it will be a horrible outcome. I speak in ways that are not good in reference to the people on the other end at times, but think of what it is like to be me? Would you not feel the same way? I try to see the good in you and I usually do. Your actions are heartbreaking however. This is almost over for you, if they will work with me on this last request to get my meds filled. It will quite likely be over for me if they will up my dosage. Otherwise my suffering and feeling helpless will remind me of this daily. Warmest Regards, Clint Williams (980)-[REDACTED]

My promise is good still yet, but I wanted to tell you some things. If I get AU girl and whatever was planned there, or if I get any kind of help, I can keep it under wraps. I would prefer to keep my apartment in Charlotte or live in Charlotte, but I could move to NY as well, if that makes things easier. If absolutely necessary, I could move to a different country. No one has any reason to believe the things I allege, and if my friends ask me how I got this girl or this money or this whatever, I can tell them that we settled over the privacy violation, and none of the rest was true. Or I can tell them something else. They are not likely to think much else of it. People tend to not have any interest in me or my life. For 98% of the time, my friends only message me if I first message them. No one cares to spontaneously see how I'm doing. This is a consequence of my lifestyle, where I am a loner and do not invest a lot in most of my relationships. Any and all obstacles to getting me help can be overcome, I promise. I will work fully with you. We can make it a win win across the board. You still have the opportunity to do this. It is the right thing to do. It is the right thing that I get something out of the destruction I have been dealt. But again, my promise is still good. Please get them to write that script tomorrow. I am somewhat likely to sleep past 4 or 5 pm, so they can leave me a message if I don't answer. I'll get my mother to set up a day off so I can get it filled. My heart is broken. This is a terrible outcome for me. I don't know how you do this to someone, truthfully. Warmest Regards, Clint Williams (980)-[REDACTED]

There is this recurring concern "what would it take for you to forget about Wells Fargo." The answer is for my life in Charlotte to be secured. At this moment, I have a way to do that without Wells Fargo making it right with me. In the short term I need my adderall filled. I then need an appointment ASAP to talk about getting it upped to 60mg. If they could just up it to 60mg on this thing at sept 1st, that would be ideal. I am almost certain that 20mg Zyprexa + 60 mg adderall would allow me to work again. I could fend for myself in my life in Charlotte. The problem is that you are ruthlessly running scams and seem to do so with no concern for my well-being or the things that concern me in life. This massacre of my new life must cease. I need the abuse to cease. I need help. I am having terrible withdrawal symptoms right now. This is torture. I have contacted 3 additional media companies. I see very little chance that any of them amount to anything. I also have a very low probability lead that has arose from my previous outreaches a few months ago. I'd put it at 1% that anything comes from it. Total odds from all 4 are less than 5%, I would estimate. In the unlikely event that I get traction, I will try to make this a win/win/win. Please follow my lead in that case. I want to believe that there is some positive motivation behind your behavior. I see the DOJ as fundamentally good people. I believe that you have had concern for me. Your recent behavior, however, is very troubling. You appear to be holding nothing back and you appear to be quite alright with the life I cared so much about, with this life being completely destroyed. I still want to believe in you, still yet. I cannot believe what has happened to me. It is utter cruelty at every turn. Every time I try to get help it ends up just more cruelty for me. Please be the exception. Please do something good for me. I miss AU girl so much. -- Warmest Regards, Clint Williams (980)-[REDACTED]

If I get traction from the media, you will see how this can be made to be a good thing. I wish so bad that you would help me. I am so sad over AU girl. It would be wonderful to get her and that life back. I am going to die having never known what it is like to be in love. That is part of the consequence of all of this. If adderall allows me to work, which I think there is a good chance that it will, I will still be impaired and it will be all that I can do to manage my own life. I will live a life filled with so much sadness. If you would please give her back to me. Whatever was on offer there. My suffering is so extreme and it has went on, unbearably, for years. I cannot help but lash out. I will again settle for getting my 60 mg adderall so that I can work. You will be done with this then, but just so you know. I want you to know how much this meant to me. Maybe you have it in your heart to give her back. -- Warmest Regards, Clint Williams (980)-[REDACTED]

This fight is over. Please be kind to me. None of the media people will get back to me. There is no chance. Someone at the Washington post read my message from June but they do not talk back. I was just trying to get help to prevent further abuse of me. I am about to die. This fight has worn me down extremely. I have no further ability to withstand abuse. I need my adderall back. I need that medicine to function. I am sorry

for whatever issues I have caused. I was simply trying to get justice out of a terrible, horrific situation. Please be kind to me. -- Warmest Regards, Clint Williams (980)-[REDACTED]

I do apologize. I'm listening to this and it is hard for the other person to listen to. I am lashing out. I have a serious deficit in understanding how to be around people. I ask that you look over me and I ask that you take into account the damage and the terrible suffering and the hardship this has caused me. I will try to make subsequent audios be easier to listen to. There seems to be a power play mentality on the other side. It is as if, if I offer something, we have to do something else. We can never give in to the way I want things to be or make the process sympathetic to me. I don't know what to say about this, except that i do not think in such terms, ever. It is likely a counterproductive strategy for all parties. I want this to be over as bad as or worse than you do. I don't know what it will take at the moment. I can just say that I miss my AU girl. I apologize again for my tone, but please think of what it is like to be in my shoes. Warmest Regards, Clint Williams (980)-[REDACTED]

In audio #2 I start talking about my dad. You can skip to audio 4 immediately when I start this (it is around 1:11). The tangent about my dad is over at roughly 1:11 on audio 4. These are about 32 minutes total, if you skip the part about my dad. In the main part of these audios, I speak from your perspective. It meant so much when you got AU girl for me. That was such a good time. I am severely handicapped and I need you to help them me. I hope you understand that I never mean anyone any harm. It is just that there is only so much hell I can take, and I hurt extremely. I want a constructive outcome from this. I want everyone to win. I ask that you help me. We can talk about what a fair settlement amount would be. I have been so good to this bank and so good to so many people in my life. This is a good man writing you. I will never have a life without your help. I am completely handicapped, especially without my medication. This nightmare that I have lived, no one should have to live this. I understand that the bank has its priorities and its problems. Even understanding that, I offered a consequence free chance to end this many times over. I have asked for less than I deserve at every step of the way. My point is that I have done no wrong. You are good people. You are possessed of ordinary human nature. That is my belief. You have reasons for behaving the way that you do. I try to not take it personal, even though it sometimes hurts me extremely. I want to be your friend and I want this nightmare to end. I want it to end for all of us. We can do good things together. No one has to know, and if and when they do, we can make this something good. I'm not so near death now. I have recovered a smidgeon. My fears of death seem to have a pattern of being false alarms. We get these false alarms on a recurring basis, it seems.-- Warmest Regards, Clint Williams (980)-[REDACTED]

Here is another audio. You are engaging in compulsive reality denial and you are doing it in a cowardly fashion. Call me to talk to me. Set up a 3rd party to render a medical opinion about my condition. If a 3rd party says I am fine and won't need any help to live a normal life, I will accept that conclusion. But we will never get that far. You are scared of the truth and you are a sad example of a justice department. Reality: Wells Fargo has demolished me with its criminal massacre of me. I am a demolished, broken, and ruined human being. The onus is on Wells Fargo to fix this situation. The only fix to this situation is for me to be paid so that I can fund all of the demands of life

that I cannot meet. I have a severe, chronic case of PTSD resulting from Wells Fargo;'s criminal massacre of me. I am extremely handicapped by this. Not Reality: I can "get my resolve back". There is a specialist who can heal me (and do it for free, as I cannot pay for anything because I don't have the ability to make income). "Wells Fargo's criminal massacre has nothing to do with his condition". "He can go about life as if all of these crimes did not happen." It goes on forever. Any and every claim to any solution for this situation that does not involve Wells Fargo making this right is a delusion. There is no solution that doesn't involve Wells Fargo making it right. I cannot overpower reality. The kid gloves are off for the people on the other end. You are going to sit there and let me die. That is another reality. There is no point in trying to reason with you. You are a murderer. Wells Fargo is a murderer, and you are too cowardly to warn the public of this reality. -- Warmest Regards, Clint Williams (980)-[REDACTED]

I ask that all major decision makers in this process listen to these. There won't be many more audios. These address the heartbreaking conclusion that we have reached. The entire global economy will go on at my expense. I paid a massive price so that it can, and I get absolutely nothing for it, after I killed myself my whole life to be the best person I could be. I am a ruined, demolished human being, and this has been done to me for no reason. I didn't know that I am not allowed to have an argument with my friend, because I worked with her at Wells Fargo 2 years ago. I did nothing to deserve any of this and there was no way that I could have ever seen it coming.--

I am starting to have faint hopes of a life after this. For this I need you to please relent any current or future waves of abuse. I have been crying all day today. I ask too, that if any of the people from Wells Fargo who have so many private details of my life, if any of them see me, please do not belittle me or speak condescendingly to me about my life or in any way. I have had the feeling for a long time that if I were to see one of these people out in person, I would cry on the spot. I feel humiliated and worthless. I am severely damaged, extremely severely. There is no way that I could have ever seen any of this coming. I have been massacred in a way that was unavoidable. I do think that a concern for the economy is what drives the inhibition. I never wanted anything bad for the economy. In retrospect, it would probably create quite the shit storm, what has happened to me. I am a simple man who lives a pretty simple life. I have managed to cross paths with this company that outweighs me 200 million to 1. Our interests are not symmetrical in weight or in importance. This I understand. What I will never understand is why something couldn't be done to help me. This is so terrible and so heartbreaking. I will hurt over what has happened for the rest of my life, and will likely have some ill feelings towards the bank on and off. Right now, though, I feel like saying that I wish them well and I hope they do a lot and accomplish a lot with the price that I paid. No need for it to go to waste. I thank you too, for the time you have invested in this. Someone somewhere tried to help me with AU girl. I have for sure been very needy too, and this creates a workload. We are coming to an end of this

battle. I am shattered completely and who knows what hardship I will face in the near term future. Warmest Regards, Clint Williams (980)-[REDACTED]

I will live in terrible suffering for the rest of my life. I am suffering so extremely right now. Your life will go on, but my suffering will never go away. I intensely crave death almost all day long. I cannot take this terrible pain. What needed to be done was for this bank to make it right. They caused this and they should fix it. I have offered every win/win I can think of. I offered to help the bank when I am able. I tried my best to work with you and them. I have no choice about this suffering. It is emotional pain and a feeling of helplessness that comes from my broken brain. It is not a matter of perspective. There is no pep talk that anyone can give me or that I can give myself. If they would have settled with me, no one would have to know. I am a man of my word and can keep a secret. Why do you do this? Why can't you be my friend in this fight? So much I gave and so little I ask for. I killed myself working for decades and now is the time the payoff was supposed to come. But I will not see my payoff, because I got murdered before I had a chance to collect on it. The convenient thing for you is to ignore the bank's conduct and what it has done. I am unable to ignore it because I live in devastation and pain over what this bank has done. The bank is 99% of the picture. I wish you would reconsider. I wish that you would consider helping me. I need someone's help and you could help me. The life of pain that awaits me can be avoided still.-- Warmest Regards, Clint Williams (980)-[REDACTED]

I will live in terrible pain for the rest of my life. I contacted you because I needed justice. This bank has all the money in the world and could fix my situation instantly, at will. I have been destroyed for no reason. My #1 goal now is to die. I cannot take this life of pain. The only hope is for my meds to be adjusted to 60 my adderall as I asked last time. My condition is so severe that I do not think that will provide any lasting capability for me to fend for myself. I think I am too bad off for anything to help. This 20 mg Zyprexa is going to cause compounded cognitive impairment too. This will likely make my new regimen unsustainable. You should give me justice. What I have gotten is the opposite. I understand that you want to cover this up, but there is no reason that I can't be made right while we have a cover up. I will lie for you or do whatever is necessary. What's going to happen instead is I am going to die. I will live a life of terrible pain and then I will die. I will pay the price for this bad hiring decision that I had no role in, and the price will be my life. There is no light at the end of the tunnel for me. There is a glimmer of hope in my meds getting changed, but once that fails my fate is sealed.-- Warmest Regards, Clint Williams (980)-[REDACTED]

I will do just about anything to save myself from this life of pain that awaits me and the death that will be the only way out. I have been treated with merciless cruelty when I did nothing wrong. Why can't you be different? Warmest Regards, Clint Williams (980)-[REDACTED]

If I can get my medication at 60 mg adderall, I will stop going to Twitter, Facebook, etc, and I will kill my cloudfront distribution. If I get some movement from the preexisting campaign I will follow up. Otherwise it will be over. I will just take my reality for what it is. I know Wells Fargo wants me to get a lawyer and take them to court. That will never happen. Warmest Regards, Clint Williams (980)-[REDACTED]

This is senseless. Look at what this has come to. I need some kind of way to have some kind of a life and it seems that this bank making it right is the only way. I am extremely damaged. I want to get a brain scan that documents the damage to my brain. I don't think that anything will help all that much, given the severity of my condition. I really hope and pray (sort of, I am not a praying man) that I can get on 60 mg of adderall and this will allow me to have a life. If that doesn't work then for sure I am broken beyond all repair. If you have heard something terrible about me, it is not

true. There are a handful of candidates for terrible things I am said to have done. Of them, only one is even partially true and in that case I didn't do anything extremely wrong. I've told you about it already. My life is complicated and there is a lot that needs to explaining. It can all be explained. Just contact me and ask. I am having chest pains right now. Something is wrong with my heart. I am truthfully hoping that I die in my sleep but I'm not that lucky. Warmest Regards, Clint Williams (980)-[REDACTED]

My Twitter campaign is getting some traction, just a little. My complaint is being accessed many many times too. I think it may be people who do not realize they can save it as a pdf. I am a demolished human being. I can't do anything. I need this bank to do something for me to make it right. I am so extremely handicapped. I will not make it through the rest of life. The bank is part of the picture for how we got here. It needs to be part of the picture for how we get out of this. It is strange to me how you haven't helped me. I don't know why this is. I'm acting in good faith towards you and have been. I think it is the consequence of the bank suggesting that anything I say is true. I think that may be the hold up. We can work around that. I am destroyed and I need help. Please justice department help me.-- Warmest Regards, Clint Williams (980)-[REDACTED]

I told you that this is just between you and me. I take this very seriously. My situation is extremely dire however. I have thought up a way to get this in front of the entire public fast. I am likely to do it in the near term future if you don't reach out to me with a way for me to get some help. I have no choice. It is this or endless suffering for the next 20 or 30 years of my life, until I die. I have asked you for help for a year now, and I don't even get a reply to my email. This is while I suffer unbearably. Then you sponsor criminal abuse of me. This is not justice and I did no wrong. I have nothing to lose and am even willing to go to prison. I do not intend to hurt anyone or to break any rule that I currently know of. I may end up breaking some rule that I am not presently aware of. Please reach out to me fast, so that I can not go back on my word. I will likely begin on my plans tomorrow and move forward next week. I can say that almost 100% for sure, my new plans will have this in the public eye in a big way and very fast. I mean no harm, but this is bullshit. I would prefer the death penalty to the life I have before me. That is how bad I suffer. While I suffer like this, the justice department sponsors crime against me. I want to be your friend and I want you to be my friend. My new plans may create a shit storm that cannot be contained and god only knows what kind of scare may be created with the markets and whatever else. I have no choice, as my suffering is unbearable. I am in too much pain. -- Warmest Regards, Clint Williams (980)-[REDACTED]

Sorry about my harsh sounding demeanor and tone. I'm in bed and this just came to me. It is a flash of insight. I mean you no harm and I also care about you. It is just that I'm burning alive and I've been begging you to put out this fire. I cannot be entirely rational in this condition and there is only so much that I can take. My new plan may create a sudden shit storm that could have disastrous effects. I hope not but it is possible. It would be much easier to just help me and do this in a controlled way. But that doesn't seem to be an option. I've been begging you for this. Please contact me with a way to get help. Otherwise very early next week I will likely launch my new plan and who knows what will happen. I am facing a future of being a tormented, disabled,

homeless person. I cannot have this. It is not anything I have any choice over. My actions are not within my ability to fully control. I have to escape this suffering. Warmest Regards, Clint Williams (980)-[REDACTED]

I am severely weakened and will not make it much longer. You need to help me or you need to make arrangements for how you will explain yourself if I die. I have pleaded with you to save my life and thus far you appear to be fine just watching me suffer and die. This is reality. I will probably feel bad for saying this and apologize in the morning. It is reality even if I apologize. I am a dying man. I have been slowly dying for 2.5 years. Eventually, I will die. That's what happens to people who are dying. For me it won't be long. I can't tell you how weakened and how tormented I feel. I have been massacred. I ask for very little at all times. It's been one lowball after another from me. I can't seem to make my offer low enough. It is too much to ask for me to live or to have someone care that I'm dying. Warmest Regards, Clint Williams (980)-[REDACTED]

A human being is going to die because of this banks crime. The authorities will have sponsored this murder. My blood will be all over your hands, the day Wells Fargo becomes a murderer. I am wearing down and am extremely tormented. I will not make it much longer. We can have an outcome that works for everyone. Think of how happy I will be when you help me. Think of how good you might feel. Think of this issue being over and what a relief that will be. This is better, don't you think? Warmest Regards, Clint Williams (980)-[REDACTED]

I am trying to keep this between you and I. That was my commitment. I consider lawyers fair game because that's what Wells Fargo hinted that they wanted. I closed my Twitter again. I understand that my behavior is offensive, but I promise you that my feelings are valid. Anyone else would behave like this or, more likely, worse, if they were suffering like I am. I have done no wrong and I need some way to know what to do to get out of this. I really need help, but if I can't get help I need to know how to get my medication back. I need out of this. I will make some audios tonight. -- Warmest Regards, Clint Williams (980)-[REDACTED]

It's easy to beat up on a disabled man. That doesn't make it right. I am on your side as soon as you help me. I will defend you. I know that you have constraints and feel like a lot is at stake. There is no reason this bank can't make it right and still go on. The way I am being treated is completely immoral and also cowardly. People do not seem to have the courage to talk to me and hear my side. They know that all the things they have been told or made up about me are wrong. That's my guess. If you would please contact me. It is very strange how nothing is being done to help me. The behavior that has been directed at me is very cruel. It is cruel how I am left to suffer. There is some reason for this. I am a good person. Any claims to the contrary please make me a part of the discussion. I said some crazy things 20 years ago. I had a hard life. I moved to Charlotte to escape all of this. One bad period in someone's life shouldn't doom them for life. This is what has happened to me, however. People make mistakes and I am willing to forgive all parties, if you care about that at all. I want to be your friend and I want you to be my friend. I got the brain scan that you wanted. It was absolute murder getting that brain scan. I've done what you wanted. Please make this fair for me. If Wells Fargo pays me, I can have my life in Charlotte. I can pay the bills that I currently cannot pay. I can put bills on autopilot. I can pay people to help me with the stuff that I cannot do myself, because I am handicapped. I will be able to fend for myself in life, with my life here in

What has happened has damaged me very badly. I don't know what to do. I need you to help me, for sure. There is something extremely bad wrong with me. I am in a trance like state and am picturing myself killing certain people. I have a feeling of extreme hostility and malice. It would not be safe for others to be around me while I'm like this. I can and would get violent, almost certainly. I don't know what on earth could be done to treat this. I may need to be institutionalized for life. If you could get me enough money to live, I could just design my life so that I am not around others at unpredictable times. I need people to take care of me, at some point I will need that. I am extremely ill. I have been severely damaged by all that has occurred. That is what all of my symptoms indicate. Warmest Regards, Clint Williams (980)-[REDACTED]

This thing that I called a homicidal trance was very strange. I never had that happen before. There was a depersonalization/derealization element. Today is my birthday. I am suffering extremely. I turned 41. I am not able to manage my life. I found out a few weeks ago that I have been approved for food stamps. I have apparently been approved for a long time. This whole time I've been using my poor mothers money. I got my replacement card today (I have no idea what happened to the first one. I probably threw that piece of mail away, not knowing what it was). I had a balance of over \$3,100. I've ordered a bunch of soylent shakes and also \$36 worth of beef jerky. Still have over \$3,000 left. I ask that you please please please help me. I am so severely handicapped and I suffer so intensely. I will never make it unless you help me. It would mean so much to me and I am a good person. AU girl emailed me to say happy birthday. I miss her. I keep thinking of ending my life. I'm scared to death of this sodium nitrite. I can't get over the fear of some toxic reaction with the chemical. I'm worried it catches something on fire or that it burns my skin. Then there is the chance of surviving. I have an intuition that I will be one of the ones who react by violently vomiting. I am of a sensitive and delicate constitution, and this is how my body works. I want my suffering to be over so badly. I wish so much that I lived in Belgium or that I could go to Belgium and be put to death. With this pentobarbital you go unconscious in seconds and die in about 30 minutes. What a dream that would be and how delighted I would be when I feel myself rapidly falling into a deep sleep. I would know that my suffering is over. I'm getting overly detailed and giving too much info. Please please please help me. I cannot describe how much and how intensely I suffer. -- Warmest Regards, Clint Williams (980)-[REDACTED]

I could be wrong, but at the moment it looks probable that the people on the other end will have to answer for what you've done. It looks like your plan to keep this under the rug may have failed. I hope that I am not wrong and time will tell. I called atrium today to get an appointment for a second opinion on my adderall. This is the medication that you took away as part of your campaign of abuse. I really need this back. It eases my suffering greatly. I ask that you do something for me. At least let me have my meds back. A settlement offer would be very nice. If I am not helped, I would put the odds as follows; -the people on the other end never have to answer. What happened is completely under the rug - 20%-the people on the other end have to answer and I live to see that day - 40%-the people on the other end have to answer, and I die before that time comes. The people on the other end will have to answer also for why they murdered me with this cruel torture - 40% So there you have an 80% chance that you have to answer to the public for what you've done. It would be really nice if we could start working together as friends. I need my suffering to be lessened and ultimately I need my suffering to be put to an end. This is obviously not a threat. I'm just telling you how I see it. If you help me, I will have some good things to say about you if and when the day comes that you answer for what you've done. It is the right thing to do, to help me, no matter how powerful you are. I am very simply a human being who is suffering extremely and I never did anything to anyone to deserve any of it. -- Warmest Regards, Clint Williams (980)-[REDACTED]

I have been thinking about it, and I will die having never known what it is like to be in love. That is a consequence of what has happened no matter what. I am too disabled. I have nothing to offer any woman. If you make it right I will still have nothing to offer. I cannot go out. I can't do much of anything. What will happen is whatever woman I have will get sick of my limitations and start to scheme to take my money. I will not be able to police her and she will succeed. They will take my money away, that I need to live, as I am helpless. There is no point in trying to have a woman in my life. This is all it will get me. I will still mourn AU girl for the rest of my life. I felt like I had something then. This is the pure destruction that has been poured on my life, for no reason. I cry sometimes, when I see a pretty woman on a YouTube video, knowing that I will never have one, as the culminating result of decades of cruelty directed at me. I'm sick of crying over my life. All I want is to stop this life of terrible suffering that I have ahead of me from happening. I want to end the suffering that I have now and to stop that life from coming to fruition. I did nothing to deserve any of this ruthless and heartless cruelty

that has been directed at me. Please give me my medication back. Please settle with me. Warmest Regards, Clint Williams (980)-[REDACTED]

This is a book that I wrote in 2011 (mostly). It is for young people to help them not make the mistakes that I made when I was in my teens. I put it online for people to get for free. If I am such a bad person, why do I do this? Why do I invest hours and hours of my time, to put something to help people online? I get paid 0 dollars and 0 cents. It is because I care about people and I like to help people. That is why. When this good man who is talking to you dies, please remember the good in him and speak well of him to others.-- Warmest Regards, Clint Williams (980)-[REDACTED]

You can save my life for the short term. I need \$5,000 to pay rent and court fees. Then I can keep my apartment in Charlotte. I think that would buy me out of the eviction. Then you could help me month by month, until you figure out what to do. Otherwise you are likely to be in the media and I am likely to die. I can't take any more of this and it is going to get worse. You may not care if I die. Other people will care, and it will be no mystery why I died. It is in your own best interests to not be a murderer. I hate to be so blunt but this is reality. The situation I am in is very dire and serious and what has happened to me is terrible. You are just going to watch me die. I can't help but plead with you anyways. I ramble a lot in this one. I need my medication back. I need a settlement. I need you to call me and let's talk. One note, in the audio from the other day, I say it was 30 minutes

ago that I took out the trash. It was actually more like 10 or 15 minutes.-- Warmest

I am being tortured to death with all of the abuse that is and has been directed at me. My brain is severely injured. I didn't do anything to anyone. You may have been prejudiced against me by decades old healthcare records. That is another crime. That's all to make of those records. They say nothing about me. I was extremely unwell when I said all of those things. I keep telling you that I'm going to die, and I am. I am weaker and weaker all of the time. I am the victim. Out of all people, I should get something. This is all very stressful for you, I am sure. There is a lot at stake. It can all be done quietly and I am also open to moving to another country. Right now, I am living in torment and I am extremely handicapped. I feel that I must end my life because nothing will ever change. I will never get my medication back. I will be left to suffer like this forever, and it will only get worse. That is what I think. We can make this right and we can make this work for me and make it work for everyone else. If you have heard some terrible thing about me, please give me due process of law so that I can prove myself innocent. I have never done anything terrible to anyone. I did some wrong things as a teenager that I beat myself up about, but that's it. I am not a cruel or hurtful person. I am someone who is extremely kindhearted. Please help me and I will

help you. I am living in torture and endless torment. You can save me from this.

Here is an audio I sent N.C. DOJ. You need to prepare for the day that I die. That day is quite likely to come. I don't know what you intend to do about it. Please make me a part of this conversation. I have such a strong will and I don't want to die. I am giving up though, slowly. I am a little more resigned to fate at each iteration. I get hope and then I lose it. I get hope and then I lose it. The time is coming that I give up on more hope.-- Warmest Regards, Clint Williams (980)-[REDACTED]

I am likely speaking to people who do not care. I've never seen such heartless, indecent cruelty in my life. You are probably going to rob me and rob my dead body. I am sad over the end of my life. You and Wells Fargo and atrium health are going to be murderers. You will live and likely you will live in good circumstances. I will die in terrible pain, fear, and humiliation. I will die proud of who I am, however. I will not die as a vile, vulgar person like you. There will be no regrets about my efforts to be the best person I could be. I would do the same thing again, even knowing the outcome. I would never be like you, not at any cost. There is nothing worse on earth. I am filled with sadness over the tragic end of me. I am not a threat to the economy or you. Wells Fargo is, and I am paying the price for Wells Fargo's conduct. Why don't you pay the price for Wells Fargo's conduct? Or maybe you and I split the cost of this bank's behavior? You are a sad excuse for a "justice department" and a farce. You are a cabal of murderers who have lost your manliness to this bank. What do you think you prove by terrorizing a disabled man? Warmest Regards, Clint Williams (980)-[REDACTED]

I am a dying man and I have in fact been murdered by you. I feel bad about calling you a sad excuse. You are something better than this for someone, I am sure. Most likely for many people. Your cruelty has crushed this kindhearted man. Why do you do this senselessness? I only lived to see 41 years. I worked myself to death for decades, so that I could be murdered by you. What has happened to me is nothing less than a ruthless terrorist attack on one human being by a Wall Street Bank and The United States of America, for no reason. One big massacre. You are cruel murderers. Warmest Regards, Clint Williams (980)-[REDACTED]

My mother is pitiful. I still don't want to ever see her again (and I will not). What is the excuse for the rich and powerful thugs at this bank? What terrible limitations do they suffer from? You and them are both murderers. I cannot believe what has been done to me. Warmest Regards, Clint Williams (980)-[REDACTED]

The OIG wasn't responding to my complaint they were responding to my message from your online form. I don't know what to make of this. I was just listening to my audios and I sound very abusive. You have to understand that I am facing my own death. I am a firecracker. I am feeling very afraid. I am horrified and also very saddened. I have been severely damaged by this abuse. There is something very bad wrong with me. It is dangerous for me to be around people all the time. I am a firecracker at times and my emotional pain comes with a hostility that makes me unsafe. Life feels like it pummels me. Everything that happens, every demand on me, however small, feels like a hammer blow on a helpless man. I suffer as bad or worse than many terminally ill people. My suffering is unbearable. It is killing me and is why I will die. I can't do anything. I am so helpless. Wells Fargo could make things so much better if they paid me a settlement. I don't mean to be a bastard or to impose on you by telling you that I'm going to die. It is just the morally relevant thing. It is the cost of me not getting help. I don't want to die. I don't want to lose my fight. I am going to however. I could afford a decent amount of comfort and quite a few nice things if they paid me \$8 million. Think of what I could have. You have to account for, however, the fact that this money would have to last me the rest of my life. I would still not be so helpless and I could relax and be happy for the first time in 2.5 years. 2.5 years have been torment and unbearable hell. Please make things right for me. I am not sure that I will live past the end of this week. Warmest Regards, Clint Williams (980)-[REDACTED]

The day I die is possibly getting kicked until Monday. I am behind on my tasks. I really want to die Sunday night. You are pathetic murderers and I hope you get caught in covering up my murder. We could have made something good of this. Maybe it is the right thing, for the whole world to tank over this bank. When it is the whole world's problem, maybe something will be done about it. Right now it is convenient to just murder me and go on like everything is fine. I am paying the price for this bank's conduct with my life. You are despicable. You will see a murderer everytime you look at yourself in the mirror. I hope there is a conscience somewhere inside of you and it eats at you, this cruelty and this murder that you have dealt me. I know that I could never live with myself if I did something like this. Warmest Regards, Clint Williams (980)-[REDACTED]

I will again state that what I need you to do is to save my life in Charlotte by 11/26/2021. I will be dead on 11/27/2021. Any arrangement to do this I am agreeable

with. I have stated a figure of \$8 million for a settlement. I will accept whatever you give in however many payments you decide. I just need this done fast to save my life in Charlotte. They want rent + fees which totals \$4,500 to \$5,000. They also want proof of ability to support the apartment in the future. For this, I say we just pay off the entire lease, if I can't get an immediate settlement. PLEASE CONTACT ME. PLEASE LET'S TALK ABOUT THIS. ANY QUESTIONS YOU HAVE I WILL ANSWER. The reason I didn't end my life is that I am too handicapped to make the death potion that I need. I was also terrified of making a mistake, like spilling the bottle of salt. That would possibly cause a fire and it's a hazardous substance. I ask you to please help me. I am not fit to live with people. Warmest Regards, Clint Williams (980)-[REDACTED]

You are having mercy on all the others involved. If I get angry or self absorbed or send too many emails, apply that same mercy to me. I still cannot believe that I didn't get anything for the brain scan. That was so hard on me to get and I nearly got in a car wreck and died trying to get it. If I made someone mad, I should be given mercy.--

You are making me pay the full cost of this. I ask that you please change course in this. What I mean is that the doj could help me and Wells Fargo could help me. The doj could explain to the public that they cannot prosecute Wells Fargo, but Wells Fargo will be paying me. Wells Fargo could pay me money. The doj would get some flak and some bad press over this, and Wells Fargo would be out some money. My suffering would be so much less, but I would still suffer. In this scenario, we share the cost of what has happened. What we've done instead is I pay 100% of the cost. Doj doesn't get bad press, WFB isn't out settlement money. I suffer horrifically. It is not right and it is not fair. Please god help me. I am suffering so much. Warmest Regards, Clint Williams (980)-[REDACTED]

I thought the doj was forcing WFB to get me AU girl, to make it right. I thought the doj granted WFB request to verify nor other causes. I had no idea that this was done on WFB own volition and that the doj would let WFB get away with every bit of this and at the same time do absolutely nothing for me. This is too massive an injustice for me to get nothing for this. I am a massacred human being and I just want to die. I cannot tell you what pain that I live in. I should not have to explain my private health information to you. I owe you not one bit of apology for those records and you owe me an apology. Any conclusions you have drawn about my character from this records are wrong and cruel and unfair. It is not your business to diagnose people or to interpret healthcare records. It is your business to punish criminals, like the criminals who obtained my healthcare records. I am a good and kindhearted man. That is the truth of it and the end of the story. This would be evident to you if you knew me. The layman can judge me quite well when he or she has not saw those records. This works out when everyone plays by the rules because laypeople aren't supposed to see those records. The reason that this has turned out so poorly for me is that I had faith in the justice department. You were the key piece for me to get justice out of this. You could hold this bank accountable and take some of the burden of this fight off of me. I could get others to help me then too, like attorneys. Instead you have done what you have done. You have cruelly participated in crimes against me. You have not given me any help or any justice. You have sided with criminals 100%. I ask you to please stop this and to please do something to help me. My life has been cold bloodedly and cruelly stolen. I am doomed to a life of pain and terrible suffering if you don't help me. I'm asking you,

begging you, pleading to you, please help me. Warmest Regards, Clint Williams (980)-

I am moving back to the mountains today. My mother and her friend Charles are packing up my stuff and have been most of the day. I am unable to pack stuff and help with the move, due to my condition. I ask that you please cease criminally victimizing me. I don't know what I'll do in the mountains, but maybe I can start a new life there. I need my medication back and maybe the people in the mountains will give it to me. I understand that this situation with the bank is a big problem for you, but I never did anything wrong. I think what I need to do is get on my feet in the mountains and then use that as a way to save up more money to go somewhere else. This is extremely ambitious for someone as handicapped as me. It is more likely that I die, I think. I thought about Wells Fargo first thing when I woke up today. Thought about Wells Fargo all day and will think about Wells Fargo while I'm in bed tonight. I think about Wells Fargo because of this terrible handicap that I have and because my life is and has been crumbling. It is crumbling and I am handicapped because of Wells Fargo's abuse of me. I am getting nothing out of this. That is the clear picture. It is heartbreaking and a horrible injustice that will likely kill me. It is pointless for me to focus further on getting help from you. I am out of reporters and I think the thing to do is to drop this fight for justice. I'm almost certainly going to die as a result, but no need to prolong things any further. If there is something that I need to do to make you stop victimizing me, please tell me. I wish so bad that we could work together. If I could be part of the conversation on your end, we could make things easier for us both. I have emailed you with my suffering repeatedly. I needed you to help me. You were the one I planned on getting to help me from the beginning. You had teased me with AU girl, and this made me stick with you hoping that I could get help from you. I seemed to come very close to getting help with her and whatever you may have had planned there. I will try to email you less. I will try to cease emailing you altogether. If I die, I will send you one final email and audio. I will use Google's timed mail feature so that you get the email after I am already dead. I think you might regret something or be shocked if and when I die. I will send you those audios to reexplain and summarize why it is that this situation caused me to die. When you listen with fresh ears, you may understand better, and maybe you can prevent people dying in the future. If people ask me what happened to me, I will tell them that Wells Fargo had me kidnapped, then Wells Fargo massacred me with crime, then I turned Wells Fargo in to the DoJ and the DoJ

sponsored a cover up + criminal abuse of me. I find it hard to deal with anything other than the facts. If you need me to do something else, please contact me. We can work out a way to handle this. I think I come across and being a pretty darn bright guy, and this can mask the fact that I am handicapped. I suffer from severe limitations. That's why I need you to help me if you want me to tell people something else. -- Warmest Regards, Clint Williams (980)-[REDACTED]

I don't know why you haven't helped me yet. One possibility is that you don't believe me when I tell you how bad off I am. I am telling the truth about everything that I say. I am extremely handicapped and I have a terrible brain injury. Another possibility is that you have been prejudiced against me by my healthcare records. I have explained those. They do not say anything about me being a bad or dangerous person. I am not a psychopath or a bad person or any of this stuff. Another possibility is that people have accused me of some terrible thing. There are a lot of rumors that go around and my life is complex, and these things you are told, whatever they are, are not true. It is completely inhuman and immoral the way I am left to suffer. I am the victim of a set of terrible crimes and I suffer extremely. I am not able to make it in life. I need to be able to hire people to do the things for me that I cannot do myself. I keep posting about what has happened. Your cover up, etc. I have no idea if this is problematic for you. You need to talk to me. You announced the deferred prosecution agreement in Feb 2020. It was March 2020 that I sent you my first complaint. That the bank could only make it one month before it was accused of more crimes seems to indicate that things aren't all well at Wells Fargo, as does the fact that they were committing crimes against me right under your nose, as they negotiated with you. I don't want to be Wells Fargo's enemy. I hate to say such bad things. It is just that this is reality. How much sweeping under the rug will we have to do? What has happened to me is tragic. I am a ruined human being. I am handicapped for life and profoundly damaged. I will die having never known what it is like to be in love, after suffering horrifically for years. I wish you would stop this. It is within your power to do so. I miss

my AU girl.If you help me, I will help you. I think the best thing I could do to help you is to help Wells Fargo. If I get my medication back, I can use some of my usable hours to help them. I am able to think as well as I always have, and I'm a good think tank for ideas. I am extremely limited in what I can do, but when I have my medication I can do stuff on my computer in my residence.I am no less than a miracle worker. I worked miracles for Wells Fargo when I worked for them, and I believe I could do it again, despite being so damaged. What I need very badly is money. That would fix my situation. Money and my medication back. If there is anything that you do not understand, please talk to me.-- Warmest Regards, Clint Williams (980)-[REDACTED]

Please think of what it is like to be me. Think of how terribly and how cruelly I have been treated. Imagine what it is like to be me. I am surrounded. No one is on my side, not even my own mother. Please have mercy and compassion for me. Warmest Regards, Clint Williams (980)-[REDACTED]
